**Subject:** Final IP2 Risk Assessment for SG Degradation Inspection Finding

To all,

The cleaned-up version of the risk assessment (dated 10/29/00 @ 1 pm) is attached, per our discusions on friday.

To clear up any misunderstanding about our intent for this document, it is written in a form intended for distribution as part of the final Region I documentation, because it is expected to be FOIAed almost immediately if it is not included.

Steve Long
