Subject: Re: SG Inspection

David,

Sorry, I'll look at it today. By the way, I left a message with Ian Barnes (former Region IV SG inspector - very capable). He left me a message saying he'd be interested in working on IP-2. I don't know if we talked about this but I thought that he would be good for your inspection. We'll have to figure out a way to contract for his services but I think that we can work that out.

Ted
