Subject: IP2 Review Schedule

On this morning's call with the Region, we were told that the licensee plans on submitting the operational assessment by Friday. It was reviewed by their board of directors yesterday. I have Jeff checking into whether the information we get on Friday is everything including the responses to all the RAI and root cause questions.

Brian Sheron has requested that we perform a quick look at the submittal and get back to the licensee by June 6 or 7. Jeff will be distributing the information to you as soon as he gets it. Brian has also asked that a meeting be scheduled here with the licensee for June 14. Jeff will be coordinating this.

I'll ask Jeff and Pat to keep you posted on the review schedules as things progress given the tight time frames involved.

Marsha
