Dear Sir:

By Order dated August 27, 2001, the U.S. Nuclear Regulatory Commission (NRC) approved the transfer of the licenses for Indian Point Nuclear Generating Units Nos. 1 and 2 (IP1 and IP2) held by Consolidated Edison to Entergy Nuclear Operations, Inc. (ENOI) as the entity to maintain IP1 and operate IP2. On September 6, 2001, the NRC issued conforming amendments to the IP1 and IP2 Facility Operating Licenses to support the closing of the license transfers on the same date.

In the referenced letter ENTERGY (EOI, ENGC, ENOI) submitted a revised exemption request on the subject item for its fleet of nuclear facilities. ENOI's IP1 & IP2 plants are incorporating and adopting by reference the revised submittal as though they were being made today.

If you have any questions, please contact Mr. J. Kelly at (914) 272-3370.

Very truly yours,

Michael R. Kansler
