sample of an EFT message to Treasury and a narrative description of each field follow:

- | Field | Content |
|-------|---|
| 1) | RECEIVER-DFI# - Treasury's ABA number for deposit messages is 021030004 |
| 2) | TYPE-SUBTYPE-CD - The type and subtype code will be provided by the sending bank. |
| 3) | SENDER-DFI# - This number will be provided by the sending bank. |
| 4) | SENDER-REF# - The 16-character reference number inserted by the sending bank at its discretion. |
| 5) | AMOUNT - The transfer amount must be punctuated with commas and decimal point; use of the "\$" is optional. This amount will be provided by the depositor |
| 6) | SENDER-DFI-NAME - This information is automatically inserted by the Federal Reserve Bank. |
| 7) | RECEIVER-DFI-NAME - Treasury's name for deposit messages is "TREAS NYC." This name should be entered by the sending bank. |
| 8) | PRODUCT CODE - A product code of "CTR" for customer transfer should be the first data in the RECEIVER-EXT field. Other values may be entered, if appropriate, using the ABA's options. A slash must be entered after the product code. |
| 9) | AGENCY LOCATION CODE (ALC) - THIS ITEM IS OF CRITICAL IMPORTANCE. IT MUST APPEAR ON THE FUNDS TRANSFER DEPOSIT MESSAGE IN THE PRECISE MANNER AS STATED TO ALLOW FOR THE AUTOMATED PROCESSING AND CLASSIFICATION OF THE FUNDS TRANSFER MESSAGE TO THE AGENCY LOCATION CODE OF THE APPROPRIATE AGENCY. The ALC identification sequence can, if necessary, begin on one line and end on the next line; however, the field tag "BNF=" must be on one line and cannot contain any spaces. NRC's 8-digit ALC is:
BNF=/AC-31000001 |

(10) **THIRD-PARTY INFORMATION** - The Originator to Beneficiary Information field tag "OBI=" is used to signify the beginning of the free-form third-party text. All other identifying information to enable the NRC to identify the deposit, for example, NRC annual fee invoice number, description of fee - 10 CFR 171 annual fee, and licensee name, should be placed in this field.

The optimum format for fields 7, 8, 9, and 10 using an 8-digit ALC is as follows:

TREAS NYC/CTR/BNF=/AC-31000001 OBI=
The optimum format, shown above, will allow 219 character positions of information following the "OBI=" indicator.

If the licensee's bank is not a member of the Federal Reserve System, the non-member bank must transfer the necessary information and funds to a member bank, which then must transfer the information and funds to the local Federal Reserve Bank

For transfer of funds from local Federal Reserve Banks to be recorded on the same day, the transfer must be received at the New York Federal Reserve Bank by 4 p.m., EST. Otherwise, the deposit will be recorded on the next workday

The following are payment methods accepted by the NRC for payment of a proposed or imposed civil penalty, a full cost licensing or inspection invoice, a new license application fee or a revision to a reciprocity application:

1. PAYMENT BY ACH

The ACH (Automated Clearinghouse) Network is a highly reliable and efficient nationwide batch-oriented electronic funds transfer system governed by ACH operating rules which provide for the interbank clearing of debit and credit transactions and for the exchange of information among participating financial institutions.

A growing number of transactions involving the collection of funds by Federal agencies are being made through the ACH Network. The Federal government is the largest single user of the ACH Network, originating and receiving millions of transactions each month. At NRC, collections via the ACH Network have been increasing each year since 1996. In FY 1999, the NRC increased its collections using ACH 2-fold over collections received in FY 1998.

ACH offers several advantages over checks:

- ☺ Preferred method of payment
- ☺ Provides automatic bill payment
- ☺ Eliminates postage fees
- ☺ Eliminates lost check
- ☺ Eliminates late payments and associated late charges
- ☺ Reduces check writing and reconciliation fees
- ☺ Least expensive of all electronic collection systems
- ☺ Both payment and refunds (debits and credits) can be processed through the ACH network

To respond to the growing needs of companies to electronically send payment information as well as payments between trading partners, the ACH system incorporated Corporate-to-Corporate payments. Because of the importance to move information quickly NRC can now accept electronic payment through our Corporate-to-Corporate payment program.

3. PROCEDURES FOR ELECTRONIC FUNDS TRANSFER

The NRC can receive funds through the U.S. Department of the Treasury (Treasury) Fedwire Deposit System. The basic wire message format below complies with the Federal Reserve Board's standard structured third-party format for all electronic funds transfer (EFT) messages.
