Dockets No. 50-324
 and 50-325

Mr. P. S. Colby, Senior Vice
 President
 Operating & Engineering Group
 Carolina Power & Light Company
 336 Fayetteville Street
 Raleigh, North Carolina 27602

Dear Mr. Colby:

Provisional Construction Permits No. CPPR-67 & CPPR-68 are enclosed together with a copy of a related notice which has been forwarded to the Office of the Federal Register for publication.

The construction permits authorize Carolina Power and Light Company to construct two boiling water nuclear reactors, designated as the Brunswick Steam Electric Plant Units 1 and 2, at the Company's site near Southport in Brunswick County, North Carolina.

These construction permits have been issued pursuant to the Initial Decision of the Atomic Safety and Licensing Board. You have already been furnished a copy of the decision.

Sincerely yours,

Original Signed By
 Peter A. Morris

Peter A. Morris, Director
 Division of Reactor Licensing

UNITED STATES
ATOMIC ENERGY COMMISSION
WASHINGTON, D.C. 20545

CAROLINA POWER AND LIGHT COMPANY

(Brunswick Steam Electric Plant, Unit 1)

DOCKET NO. 50-325

PROVISIONAL CONSTRUCTION PERMIT

Construction Permit No. 68

1. Pursuant to § 104 b. of the Atomic Energy Act of 1954, as amended (the Act), and Title 10, Chapter 1, Code of Federal Regulations, Part 50, "Licensing of Production and Utilization Facilities," and pursuant to the order of the Atomic Safety and Licensing Board, the Atomic Energy Commission (the Commission) hereby issues a provisional construction permit to Carolina Power and Light Company (the applicant) for a utilization facility (the facility), designed to operate at 2,436 megawatts (thermal) described in the application and amendments thereto (the application) filed in this matter by the applicant and as more fully described in the evidence received at the public hearing upon that application. The facility, known as Brunswick Steam Electric Plant, Unit 1, will be located at the applicant's site in Brunswick County, North Carolina, approximately 2-1/2 miles north of the town of Southport and 16 miles south of the nearest boundary of Wilmington.
2. This permit shall be deemed to contain and be subject to the conditions specified in §§ 50.54 and 50.55 of said regulations; is subject to all applicable provisions of the Act, and rules, regulations and orders of the Commission now or hereafter in effect; and is subject to the conditions specified or incorporated below:
 - A. The earliest date for the completion of the facility is July 1, 1975, and the latest date for completion of the facility is June 30, 1976.
 - B. The facility shall be constructed and located at the site as described in the application in Brunswick County, North Carolina.
 - C. This construction permit authorizes the applicant to construct the facility described in the application and the hearing record in accordance with the principal architectural and engineering criteria set forth therein.

3. This permit is provisional to the extent that a license authorizing operation of the facility will not be issued by the Commission unless (a) the applicant submits to the Commission, by amendment to the application, the complete final safety analysis report, portions of which may be submitted and evaluated from time to time; (b) the Commission finds that the final design provides reasonable assurance that the health and safety of the public will not be endangered by the operation of the facility in accordance with procedures approved by it in connection with the issuance of said license; and (c) the applicant submits proof of financial protection and the execution of an indemnity agreement as required by § 170 of the Act.

FOR THE ATOMIC ENERGY COMMISSION

Peter A. Morris, Director
Division of Reactor Licensing
