South Carolina Electric & Gas Company (SCE&G), acting for itself and as agent for South Carolina Public Service Authority, hereby requests to withdraw the amendment request submitted on May 24, 2001. This amendment request was for the V. C. Summer Technical Specifications (TS), Specification 3/4.7.1.2.

The purpose for this letter is to docket the request for withdrawal of this change request. Due to resource issues, SCE&G has determined that a deferral of implementation of the modification associated with this change for one cycle is prudent. As a result, the need for this amendment request has been delayed for one operating cycle. This change will be resubmitted in time for approval and implementation during Refuel 14, scheduled to start in October 2003.

I certify under penalty of perjury that the foregoing is true and correct.

Should you have questions, please call Mr. Philip A. Rose at (803) 345-4052.

Very truly yours,
