Dear Mr. Utley:

The Commission has issued the enclosed Amendment Nos. 94 and 119 to Facility Operating License Nos. DPR-71 and DPR-62 for the Brunswick Steam Electric Plant, Units 1 and 2 (BSEP 1/2). The amendments consist of changes to the Technical Specifications in response to your submittal of September 6, 1985.

The amendments change the Technical Specifications (TS) to include the corrections to both BSEP-1 and BSEP-2 and a minor technical correction to BSEP-1. The administrative corrections include misspellings, inadvertent omissions, mislabeling, incorrect referencing of TS Tables and sections, and deletion of footnotes. The technical correction deals with the time of operation of the fire suppression system pumps to determine operability.

A copy of the related Safety Evaluation is also enclosed.

Sincerely,

Original signed by
