Robert Fretz, NRC**

**Dear Mr. Kaiser and Mr. Fretz:**

**Because of the unusual amount of publicity concerning nuclear plants' vulnerability to terrorist attack, including President Bush himself mentioning his concerns in his State of the Union speech, and because the 106 organizations of the UNPLUG Salem Campaign have filed a 2.206 petition with the Nuclear Regulatory Commission urging specific changes and improvements in the security at Artificial Island, the UNPLUG Salem Campaign proposes that PSE&G, the Nuclear Regulatory Commission and the UNPLUG Salem Campaign host a jointly sponsored public meeting at a location within the 10 mile zone to help allay public concerns about the safety and security of the Salem and Hope Creek Nuclear Plants.**

**Public meetings like this one have recently been held at a number of locations, including Indian Point, NY.**

**We propose that each party be able to make presentations about their concerns or assurances regarding nuclear plant security, followed by ample time for questions from the public.**

**We understand that security concerns may limit certain areas of discussion.**

**If PSEG chooses not to participate, we urge that the NRC to follow through and arrange such a meeting, and require PSEG participation. We feel that this meeting is very important in today's climate.**

**Sincerely,**

**Norm Cohen,  
Coordinator**
