Subject: Re: Fwd: Re-ARB of IP-2 1997 S/G Inspection Issue

Greg,

My management has expressed an interest in addressing this issue as soon as possible. Therefore, Bill Bateman (EMCB Branch Chief) indicated that he will participate in the ARB meeting next Tuesday in order to make the ARB more than just a status update. He plans to meet you in your office at 10:15 am on Tuesday, 2/27.

EMCB's position on this issue is as follows:

[Jack Goldberg, Per your request, I sent you a copy of the information we received from the region.]

If there are any further communications on this issue, please include Bill Bateman on distribution.

I understand that there is a public steam generator workshop with industry (in Bethesda) on the 27th and 28th which the all the SG people of EMCB will be attending, making them unavailable for the ARB. Louise Lund's participation at the last ARB was helpful and I think she should attend any substantive ARB on this issue. I suggest that the 27th be used solely for status and a substantive ARB be scheduled when all appropriate staff and I can attend.

8 Q16

Let me know the schedule. Thanks!
