FIRE PROTECTION/APPENDIX R REBASELINING PROJECT  
LICENSEE EVENT REPORT 266/1997-020-00  
POINT BEACH NUCLEAR PLANT, UNITS 1 AND 2

This letter provides a status report for the Point Beach Nuclear Plant Fire Protection and Appendix R Rebaselining Project. This project was the subject of previous communications to the Commission in letters dated August 5, 1997; October 10, 1997; November 5, 1997, February 10, 1999, and January 24, 2000.

The Appendix R baselining analysis was completed on August 17, 2001. The new analysis is available for review. Associated Appendix R work that still must be performed include completion of six modifications. The six modifications have been prioritized, budgeted, and scheduled based on factors such as risk significance and refueling outage schedules. The remaining modifications and associated program revisions are planned to be implemented over the next two years.

Sincerely,

T. J. Webb
