

MAR 4 1975

Docket NO. 50-261

Carolina Power & Light Company  
ATTN: Mr. E. E. Utley, Vice President  
Bulk Power Supply Department  
336 Fayetteville Street  
Raleigh, North Carolina 27602

Gentlemen:

The Commission has requested the Office of the Federal Register to publish the enclosed Notice of Proposed Issuance of Amendment to Facility Operating License. The proposed amendment would revise the Technical Specifications and permit changes in the requirements for spent fuel handling in accordance with your request of October 16, 1974.

Sincerely,

151

George Lear, Chief  
Operating Reactors Branch #3  
Division of Reactor Licensing

UNITED STATES NUCLEAR REGULATORY COMMISSION

DOCKET NO. 50-261

CAROLINA POWER & LIGHT COMPANY

NOTICE OF PROPOSED ISSUANCE OF AMENDMENT  
TO FACILITY OPERATING LICENSE

The Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License No. DPR-23 issued to Carolina Power and Light Company (the licensee) for operation of the H. B. Robinson Unit 2 located in Darlington County, Hartsville, South Carolina.

The amendment would revise the provisions in the Technical Specifications relating to the requirements for spent fuel handling, in accordance with the licensee's application for amendment, dated October 16, 1974.

Prior to issuance of the proposed license amendment, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations.

By 4/11/75 the licensee may file a request for a hearing and any person whose interest may be affected by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of the amendment to the subject facility operating license. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of Section 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER notice and Section 2.714, and must be filed with the Secretary of the Commission, U. S. Nuclear Regulatory

Commission, Washington, D. C. 20555, Attention: Docketing and Service Section by the above date. A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U. S. Nuclear Regulatory Commission, Washington, D. C. 20555, and to G. F. Trowbridge, Esquire, Shaw, Pittman, Potts, Trowbridge & Madden, Barr Building, 910 17th Street, N. W., Washington, D. C. 20006, the attorney for the applicant.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

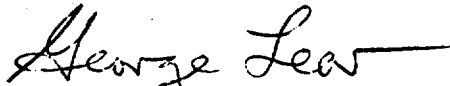

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see the application for amendment dated October 16, 1974, which is available for public inspection at the Commission's Public Document Room, 1717 H Street, N. W. Washington, D.C.

and at the Hartville Memorial Library, Home and Fifth Avenues, Hartville, South Carolina 29550. The license amendment and the Safety Evaluation, when issued, may be inspected at the above locations and a copy may be obtained upon request addressed to the U. S. Nuclear Regulatory Commission, Washington, D. C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland this 4th day of March, 1975.
