Gentlemen:

The Commission has amended its regulations contained in 10 CFR Part 50, Appendix D, revoking the condition that was included in licenses requiring the licensee to comply with standards and requirements as set by Federal and State laws for the protection of the environment. Since this condition is no longer required by the Commission's regulations, we have issued the enclosed Amendment No. 2 to Facility Operating License No. DPR-23 to delete it from the license.

Sincerely,

A. Giambusso, Deputy Director
 for Reactor Projects
 Directorate of Licensing
