TVA CENTRAL EMERGENCY CONTROL CENTER (CECC) - EMERGENCY PLAN
IMPLEMENTING PROCEDURE (EPIP) REVISIONS

In accordance with the requirements of 10 CFR Part 50, Appendix E, Section V, enclosed are copies of the Effective Page Listing and revisions to CECC EPIPs.

PROCEDURE		EFFECTIVE DATE
EPIP	EPL	2/13/02
EPIP-14	Rev. 24	2/13/02

If you have any questions, please contact Terry Knuettel at (423) 751-6673.

Sincerely,

 Mark J. Burzynski
 Manager
 Nuclear Licensing

24	2/13/02	Annual review. Organizational change update, editorial changes.

NUCLEAR EMERGENCY PUBLIC INFORMATION ORGANIZATION AND OPERATIONS

1.0 PURPOSE

This implementing procedure describes the public information responsibilities of emergency response personnel located at the plant site, the Central Emergency Control Center (CECC), and the Joint Information Center (JIC). It also describes how the JIC will be setup, staffed and activated/deactivated when it is determined such a facility is justified.

2.0 SCOPE

This implementing procedure applies to all nuclear emergency public information response staff and activities during a declared emergency at any TVA nuclear plant.

3.0 REFERENCES

- 3.1 10 CFR 50, Appendix E
- 3.2 NUREG-0654; FEMA REP-1, Rev. 1
- 3.3 Radiological Emergency Plan (REP)

4.0 DEFINITIONS

- 4.1 CECC – Central Emergency Control Center
- 4.2 JIC – Joint Information Center
- 4.3 EDO - Emergency Duty Officer
- 4.4 TVAN - TVA Nuclear
- 4.5 NEPIT - Nuclear Emergency Public Information Team

5.0 RESPONSIBILITIES

- * 5.1 The EVP, Communications and Government Relations, or designee is responsible for directing TVA's overall public information activities and ensuring that the TVA Board of Directors are informed of public information activities relating to a declared emergency at any TVA nuclear plant.
- * 5.2 The VP, External Communications is responsible for coordinating the activation and deactivation of the JIC with the CECC Director.

*Revision

- 5.3 The CECC Director is responsible for approving emergency news statements after the CECC is activated and for coordinating JIC deactivation with the Vice President, External Communications.
- * 5.4 The Site Communications Consultant is responsible for coordinating near-site media and public information activities.
- * 5.5 The Site Vice President is the information contact for the Site Communications Consultant and serves as the spokesperson for media briefings at or near the site.

6.0 ORGANIZATION

- 6.1 When an emergency is declared, members of the Nuclear Emergency Public Information Team will staff positions at the site, the CECC, and the JIC, as necessary, to provide information to the media and public.
- 6.2 The JIC for Sequoyah Nuclear Plant and Watts Bar Nuclear Plant is located in the Missionary Ridge Building at the TVA Chattanooga Office Complex. The JIC for Browns Ferry Nuclear Plant is located in the Fine Arts Building at the J.C. Calhoun Jr. College which is south of Athens, Alabama on U.S. Highway 31.

7.0 NOTIFICATION

- 7.1 The Operations Duty Specialist notifies the Nuclear Emergency Public Information Duty Officer whenever an event at one of the TVA Nuclear plants is classified as Notification of Unusual Event, Alert, Site Area Emergency, or General Emergency.
- * 7.2 The Nuclear Emergency Public Information Duty Officer will notify the appropriate Site Communications Consultant, the VP, External Communications, and Media Relations.

8.0 ACTIVATION AND COORDINATION

- 8.1 The NEPIT will provide personnel who have met their fitness-for-duty requirements and whose training is current to staff the CECC at an Alert or higher emergency classification.
- 8.2 Upon notification of an Alert or higher emergency classification, the Nuclear Emergency Public Information Duty Officer will notify the CECC Information Manager.
- * 8.3 In close coordination with the CECC Director, the VP, External Communications, will determine, based on news media and public interest, and the severity of the incident if and when the JIC should be activated. This decision will be coordinated with the State Emergency Management Agency.
- * 8.4 The VP, External Communications, will notify the JIC Director of the decision to activate the JIC.

*Revision

- * 8.5 The JIC Director will implement JIC activation by contacting the JIC Activation Manager and the key JIC staff members in accordance to Appendix A.

9.0 CECC STAFFING RESPONSIBILITIES

- 9.1 The CECC Public Information Manager will coordinate the overall public information response to an emergency when the CECC is operational and will keep the CECC Director and staff informed of related public information activities.

- 9.2 The CECC Writer prepares news statements on the declared emergency.

- 9.3 Technical Advisors will be provided to assist the CECC Public Information Manager and staff in understanding technical information and plant conditions and will assist in the coordination of information with the TVA Spokesperson and JIC technical advisors.

- 9.4 The CECC Liaison coordinates information with the appropriate Site Communications Consultant and with State and Federal agencies until the JIC is operational.

- 9.5 The CECC Liaison coordinates information with employee communications.

- 9.6 The CECC Clerical staff is responsible for clerical support to the CECC Public Information work area.

10.0 JIC SETUP, STAFFING AND ACTIVATION RESPONSIBILITIES

- 10.1 JIC Director is responsible for implementing JIC activation, declaring the TVA part of the JIC operational, and managing the overall operation of the JIC and all TVA public information activities near the site after JIC activation. The JIC Director will coordinate the decision to deactivate the JIC with the VP, External Communications, the CECC Director, and offsite agencies.
- * 10.2 TVA Chief Spokesperson, designated by the CECC Director, represents TVA at news conferences and JIC coordination meetings during declared nuclear emergencies.
- 10.3 Technical Advisors will be provided to the JIC to assist the TVA Chief Spokesperson in obtaining and understanding plant conditions and conduct informal technical briefings at the JIC.
- * 10.4 The JIC Information Manager directs the activities of the media, public information, broadcast, and media monitoring teams; and coordinates the exchange of information with Federal, State, and local public information officers in the JIC and with the CECC.

*Revision

- 10.5 Representatives from the WTCI-TV45 JIC Audio-visual team will be responsible for setting up and operating broadcast equipment. They will store, transport and set up table skirts for both the Calhoun College and the Chattanooga Office Complex stages. They will be responsible for videotaping news briefings, and for assisting news media with broadcast-related requests.
- 10.6 Public Information Representatives are responsible for communicating with members of the public requesting information on the emergency and coordinating information with State representatives.
- 10.7 Media Representatives assist the news media at the JIC and those contacting the JIC for information.
- 10.8 Personnel assigned to the Media Monitoring team will monitor radio/television broadcasts for information on a declared emergency and will report rumors and misinformation to the JIC Information Manager. Stations to be monitored in each plant area will be listed in the position notebook for media monitors and the Public Information Program notebook provided for positions of the Public Information team.
- 10.9 The JIC Graphic Artist provides graphics for use in news briefings.
- 10.10 JIC Clerical personnel are responsible for providing support to the JIC staff for SQN and WBN. These clerical personnel are staffed through a combination of personnel from Communications and Government Relations, and from the CECC clerical pool. For BFN, personnel are provided from BFN personnel.
- 10.11 The JIC Activation Manager will organize the Setup Team, ensure leased or otherwise available copy machines are obtained, transport designated equipment to the JIC, and will be responsible for the physical setup of the JIC using Appendix B or C (which describes the layout of the JIC to be activated). These layout drawings will be used to position the telephones, fax machines, copy machines, personal computers, video monitors, tables and chairs within the rooms. The Activation Manager or his designee shall be responsible for physical adjustment within the JIC should it be determined necessary during operations. All electronic equipment will be functionally tested upon setup.
- The Setup Team is responsible for the correction of equipment problems during setup and JIC operations, should that be necessary. The Team will also provide any additional supplies, equipment or materials needed for operations either from TVA or commercial resources.
- Activation of the JIC is neither as automatic nor as time sensitive as the CECC since it is based on a judgment of media interest and plant conditions by the VP, External Communications. With staff members coming from Knoxville and other areas, time is available to procure needed supplies, equipment, or materials from the considerable resources of TVA or from commercial sources. Therefore, it is not the planning intent to maintain every possible needed item in storage. Supplies that deteriorate with time will be stored at minimum levels and supplemented locally in the event of JIC activation.

*Revision

- 10.11.1 Much of the equipment for setup of the SQN/WBN JIC is located in the Missionary Ridge Place building of the Chattanooga Office Complex in a basement storage cage along the east wall of the Mechanical/Electrical Room 7 (MER-7). Keys to this storage are located with the Chattanooga Office Complex Facilities JIC Activation Manager, the Communications and Government Relations Office, and the Corporate Emergency Preparedness State and Local Program Office. Facilities or Security personnel can direct personnel unfamiliar with this location. Personal computer(s) and printer(s) for the SQN/WBN JIC will be supplied from the Emergency Preparedness office/storage on LP6 or from other TVA computer sources as needed. Set up of the computers will be provided by Nuclear computer staff personnel.
- *
*
*
- 10.11.2 Some materials and equipment for setup of the BFN JIC at Calhoun Community College is located in a storeroom behind the audio booth of the Barnwood Studio in the Fine Arts Building. Keys to this storage is located with the Activation Manager, Site Communications consultant and EP State and Local Program Staff. Mounted charts, graphics and maps are located in this location. The majority of the supplies and equipment such as fax machines, telephones, back up PC system, and media monitoring devices will be stored on the BFN site in the Equipment Storage room for JIC which is located at the BFN Facilities Complex. Keys to this storage are located with the BFN Facilities Managers Office, the BFN Emergency Preparedness Office and the Communications and Government Relations Site Office. The necessary JIC equipment stored at this location will be transported to the JIC by the Activation Manager's team. Additional commercial sources will be used as needed.
- *
*
*
- 10.11.3 A personal computer/printer for the BFN JIC will be maintained in a state of readiness at the IS office located in the BFN Training Center by the BFN IS Manager or representative, who will also set up and test the personal computer equipment as part of the JIC activation.
- 10.11.4 Media work room equipment for the BFN JIC will be stored in the BFN onsite equipment storage room. Work room equipment for the SQN/WBN JIC will be stored in the basement storage cage along the east wall of the Mechanical/Electrical Room 7 (MER-7) and the Emergency Preparedness office/storage on the 6th floor, Lookout Place.
- 10.11.5 If the BFN JIC is activated, the BFN JIC Activation manager and/or team is responsible for the transportation of the fax machines, telephones, media monitoring equipment, PC systems, copiers, and other stored JIC equipment and materials to the JIC at Calhoun Community College. Audio/visual equipment and Stage Table skirt is transported by WTCI-TV45. Equipment and software utilized from the EP office/storage for the JIC graphic displays is picked up at the EP office/storage and transported by the Chattanooga Communications and Government Relations personnel to the JIC. They will also return it to the EP office/storage when the JIC is deactivated.
- *
*

If the SQN/WBN JIC is activated, the COC Facilities JIC Activation manager and/or team is responsible for the transfer of the fax machines, telephones, media monitoring equipment, copiers, and other stored JIC equipment and materials to the JIC in the COC. Audio/visual equipment is transported by WTCI-TV45. Equipment and software utilized from the Emergency Preparedness office/storage for the JIC graphic displays is transported to the JIC and set up by Nuclear Computer Staff personnel.

*Revision

11.0 SHIFT CHANGES

- * 11.1 All personnel assigned to the TVAN emergency facilities are responsible for signing in, notifying their supervisors, receiving status briefings and assignments, and logging in the time that their positions are operational.
- * 11.2 All personnel departing TVAN emergency facilities are responsible for briefing their replacements on emergency status and tasks, turning in logs, notifying their supervisors prior to leaving the facility, and verifying the time they are to report for the next shift.

12.0 DEACTIVATION OF JIC

- * 12.1 The VP, External Communications, will determine, based on news media and public interest, when the JIC should be deactivated. This decision will be closely coordinated with the CECC Director and the State Emergency Management Agency.
- 12.2 All personnel are responsible for ensuring that equipment and work areas are returned to non-emergency status, for turning in emergency logs, and notifying supervisor when work areas are deactivated.
- * 12.3 Communications and Government Relations is responsible for ensuring that office supplies are restocked in storage boxes and that contents of each box are ready for future use. Dated material, such as calendars and maps, will be removed if found in the storage boxes.
- 12.4 The JIC Activation Manager will oversee the deactivation of the JIC, to include the disconnection of the telephones, fax machines, computers, printers and other equipment transported from the site and storage rooms. All equipment and office supplies in storage boxes will be returned to its designated storage place by the involved Setup Teams, or designated group/agency.

APPENDIX A Page 2 of 3

*NOTE: The VP, External Communications or designee, shall make the decision to activate the Joint Information Center based on the conditions at the plant and the level of media interest.

The decision to activate the JIC shall be coordinated with the CECC Director (if the facility is activated) and the appropriate State Emergency Management Agency.

CECC Director	751-1614 or 751-1680
Tennessee Emergency Management Agency	615-741-0001 or 1-800-262-3300
Alabama Emergency Management Agency	205-280-2200 (8 am - 5 pm weekdays) or:
State Trooper (After Hours)	334-242-4378 (ask to page AEMA Duty Officer)

* Following decision for activation of the JIC, the VP, External Communications, shall notify the JIC Director (to be selected from staffing list in the Radiological Emergency Notification Directory) to begin activation and staffing of the center.
