Gentlemen:

SUBJECT: ROBINSON REQUEST FOR WAIVER OF COMPLIANCE

This letter is in response to your request for Waiver of Compliance dated June 8, 1992. We are also in receipt of your June 5, 1992, license amendment request which would make changes to your previous correspondence regarding the calibration of the Containment Vessel High-Range Radiation Monitors (R-32A and B). Our initial review indicates that your proposed change would represent the NRC approved methodology for calibration of accident range area monitoring for the containment. We will therefore process your license amendment request in accordance with our normal procedures.

Our review of the action statement for the current Technical Specifications (TS Table 3.5-5, Footnote 4) indicates that compliance is possible by the submittal of a special report and that a temporary waiver until your amendment request is processed is not necessary. Should you have any questions we would be pleased to discuss them with you.

Sincerely,

Original signed by:
