39 Old Ridgebury Rd
Danbury, CT 06817-0001

SUBJECT: GENERALLY LICENSED GAUGES

Dear Mr. Cawley:

This refers to your generally licensed gauges containing radioactive material that are being used, or have been used, at Union Carbide's, Northeast U.S. facilities. To ensure that our records are accurate, please provide us with a list of all generally licensed gauges at all of your sites. Please identify the manufacturer model and serial number for each device and source in your possession. A copy of your physical inventory may suffice if it contains the manufacturer model and serial number for each device and source. If you have returned or disposed of any generally licensed gauges, please provide copies of the disposition paperwork and verification of receipt. We would appreciate receiving your response within fifteen business days of receipt of this letter. If you have any questions, please contact Stephanie Tullio of my staff at (610) 337-5304. You may fax your response to Ms. Tullio's attention at (610) 337-5269.

Thank you for your cooperation.

Sincerely,

Original signed by Judith A. Joustra

John D. Kinneman, Chief
Nuclear Materials Safety Branch 2
