Lisle, IL 60532-4351

ATTN: Michael E. Bielby

PALISADES INITIAL LICENSE EXAMINATION POST EXAM SUBMITTAL

In accordance with NUREG-1021, "Operator Licensing Examination Standards for Power Reactors," Revision 8, Supplement 1, Nuclear Management Company, LLC, is providing the following materials for the Senior Reactor Operator (SRO) and Reactor Operator (RO) initial license written examinations that were administered on December 21, 2001:

- Master RO Written Exam and Answer Key (on floppy disk 1 of 1)
- Master SRO Written Exam and Answer Key (on floppy disk 1 of 1)
- RO/SRO Written Exam Comments with Proposed Resolutions
- RO/SRO Written Exam Candidate Comments
- Original Candidate Written Exam Cover and Answer Sheets (6)
- Copy of Candidate Written Exam Cover and Answer Sheets (6)
- NUREG-1021 Form ES-403-1, "Written Examination Grading Quality Checklist"
- RO/SRO Written Exam Administration Questions and Proctor Responses
- Copy of NUREG-1021 Form ES-201-3, "Examination Security Agreement"
(original will be forwarded at later date per Chief Examiner)
- Exam Seating Chart

Please contact Walter E. Nelson at (616) 764-2348 if you have any questions regarding these documents.

August 2, 2001

Mr. Douglas E. Cooper
Site Vice President
Palisades Nuclear Plant
Nuclear Management Company, LLC
27780 Blue Star Memorial Highway
Covert, MI 49043-9530

Dear Mr. Cooper:

In a telephone conversation on August 1, 2001, between Mr. Walt Nelson, Initial License Training Supervisor, and Mr. Hironori Peterson, Senior Operations Engineer, arrangements were made for the administration of licensing examinations at the Palisades Nuclear Power Station the week of December 17, 2001. In addition, the NRC will make an examination validation visit to your facility the week of November 26, 2001.

As agreed during the telephone conversation, your staff will prepare the examinations based on the guidelines in Revision 8, Supplement 1, of NUREG-1021, "Operator Licensing Examination Standards for Power Reactors." The NRC regional office will discuss with your staff any changes that might be necessary before the examinations are administered.

To meet the above schedule, it will be necessary for your staff to furnish the examination outlines by October 1, 2001. The written examinations, operating tests, and the supporting reference materials identified in Attachment 2 of ES-201 will be due by November 5, 2001. Pursuant to 10 CFR 55.40(b)(3), an authorized representative of the facility licensee shall approve the outlines, examinations, and tests before they are submitted to the NRC for review and approval. All materials shall be complete and ready to use. Any delay in receiving the required examination and reference materials, or the submittal of inadequate or incomplete materials, may cause the examinations to be rescheduled.

In order to conduct the requested written examinations and operating tests, it will be necessary for your staff to provide adequate space and accommodations in accordance with ES-402, and to make the simulation facility available on the dates noted above. In accordance with ES-302, your staff should retain the original simulator performance data (e.g., system pressures, temperatures, and levels) generated during the dynamic operating tests until the examination results are final.

Appendix E of NUREG-1021 contains a number of NRC policies and guidelines that will be in effect while the written examinations and operating tests are being administered.

ML012140555

To permit timely NRC review and evaluation, your staff should submit preliminary reactor operator and senior reactor operator license applications (Office of Management and Budget (OMB) approval number 3150-0090), medical certifications (OMB approval number 3150-0024), and waiver requests (if any) (OMB approval number 3150-0090) at least 30 days before the first examination date. If the applications are not received at least 30 days before the examination date, a postponement may be necessary. Signed applications certifying that all training has been completed should be submitted at least 14 days before the first examination date.

This letter contains information collections that are subject to the *Paperwork Reduction Act of 1995* (44 U.S.C. 3501 et seq.). These information collections were approved by the Office of Management and Budget, approval number 3150-0018, which expires on April 30, 2003.

The public reporting burden for this collection is estimated to average 500 hours per response, including the time for reviewing instructions, gathering and maintaining the data needed, writing the examinations, and completing and reviewing the collection of information. Send comments on any aspect of this collection of information, including suggestions for reducing the burden, to the Information and Records Management Branch (T-6 F33), U.S. Nuclear Regulatory Commission, Washington, D.C. 20555-0001, or by Internet electronic mail at BJS1@NRC.GOV; and to the Desk Officer, Office of Information and Regulatory Affairs, NEOB-10202, (3150-0018), Office of Management and Budget, Washington, D.C. 20503.

The NRC may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Thank you for your cooperation in this matter. Mr. Nelson has been advised of the policies and guidelines referenced in this letter. If you have any questions regarding the NRC's examination procedures and guidelines, please contact Mr. Mike Bielby at 630-829-9762, or me at 630-829-9733.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/NRC/ADAMS/index.html> (the Public Electronic Reading Room).

Sincerely,

David E. Hills, Chief
Operations Branch
Division of Reactor Safety

Mr. Thomas J. Palmisano
Site Vice President and General Manager
Palisades Nuclear Generating Plant
Consumers Energy Company
27780 Blue Star Memorial Highway
Covert, MI 49043-9530

Dear Mr. Palmisano:

In response to N. L. Haskell's letter dated September 29, 1999, we have tentatively scheduled an initial licensing examination for your operator license applicants during the weeks of December 10 and 17, 2001. Validation of the examination will occur at the station during the week of November 26, 2001. In the unlikely event that we are unable to support the examination during the scheduled weeks, we will inform you immediately upon discovery of such conditions and make arrangements to administer the examination at a mutually acceptable date.

As stated in the enclosure to Mr. Haskell's letter and confirmed in a telephone conversation between D. Rogers and D. Hills on March 2, 2000, your staff will develop the examination.

Mr. Haskell's letter indicated you are training approximately 12 candidates for the examination. Please inform us if the number of candidates declines below 10 as this will impact the examination schedule. Please also inform us at your earliest opportunity if you discover you are unable to support the examination on the scheduled dates.

A supplementary letter will be sent to the training department approximately 120 days prior to the examination outlining examination security expectations, listing the materials required by the NRC to conduct the examination, reconfirming the examination dates, and reconfirming the number of candidates you have in the training program. If you have any questions concerning this information, please contact Mary Ann Bies of my staff at 630-829-9711.

Sincerely,

David E. Hills, Chief
Operations Branch

DOCKET 50-255 - LICENSE DPR-20 - PALISADES PLANT
VOLUNTARY RESPONSE TO NRC ADMINISTRATIVE LETTER 99-03:
PREPARATION AND SCHEDULING OF OPERATOR LICENSING EXAMINATIONS

NRC Administrative Letter 99-03 entitled, "Preparation and Scheduling of Operator Licensing Examinations," requested that licensees provide, on a voluntary basis, a completed Attachment 1 (NRC Form 536 [July 1999], "Operator Licensing Examination Data"), providing: A) Proposed Examination Preparation Schedule; B) Initial Operator License Examinations; and, C) Proposed Generic Fundamentals Examination Schedule. The purpose of these estimates is to assist the NRC in budgeting and scheduling the use of its resources.

In response to this request, Consumers Energy estimates have been completed on NRC Form 536 and are attached.

SUMMARY OF COMMITMENTS

This letter contains no new commitments and no revisions to existing commitments.

Nathan L. Haskell
