SUBJECT: REVIEW OF 2001 TITLE I ANNUAL SITE INSPECTION REPORT

The U.S. Nuclear Regulatory Commission (NRC) staff has reviewed "2001 Annual Site Inspection and Monitoring Compliance Report for Title I Disposal Sites," dated January 28, 2002. Based on this review, we conclude that the inspections and the routine actions that are being performed are acceptable.

The staff notes that the Executive Summary provides a table listing site problems, issues, and actions for each of the sites. We consider this to be very informative and useful.

This review was performed by Ted Johnson. If you have any questions, please contact Mr. Johnson at (301) 415-6658.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/NRC/ADAMS/index.html> (the Public Electronic Reading Room).

Sincerely,

/RA/

Melvyn Leach, Chief
Fuel Cycle Licensing Branch
Division of Fuel Cycle Safety
and Safeguards
Office of Nuclear Material Safety
and Safeguards
