The purpose of this letter is to withdraw the subject amendment request. In the referenced letter, EGC concluded that the proposed changes maintained the effectiveness of the physical security and guard force training plans. However, due to national events that occurred following our submittal, we recognize that the NRC and the nuclear industry are performing a comprehensive review of security requirements. Since this review may result in revised security requirements, we have concluded that it is prudent to withdraw the proposed changes.

If you have any questions about this letter, please contact Mr. Allan R. Haeger at (630) 657-2807.

Respectfully,

Keith R. Jury
