Mr. Hubert Miller  
Regional Administrator  
U. S. Nuclear Regulatory Commission  
475 Allendale Road  
King of Prussia, PA 19406

Dear Mr. Miller:

You may recall our conversation during the legislative tour of Three Mile Island on November 12, 2001. At that time I expressed my concern, the concern of area emergency response officials and my constituents regarding the proximity of TMI to Harrisburg International Airport. You advised me that the NRC was engaged in a review of its safety standards and was anticipating action in January or February of 2002.

In light of the recent announcement by your agency as well as the FBI regarding threats to nuclear plants involving commercial airliners, I am writing to inquire as to the status of the review by the NRC.

Obviously, the residents of my district, which encompasses Dauphin and York counties, remain concerned about the vulnerability of the TMI.

I look forward to hearing from you regarding the progress your agency is making on this very serious matter.

Sincerely,

JEFFREY E. PICCOLA
