In the Matter of  
Private Fuel Storage, L.L.C.  
(Independent Spent Fuel Storage Installation)  
Docket No. 72-22-ISFSI

---

Dear Ms. Chancellor:

Enclosed please find copies of the following documents in the possession of the NRC Staff ("Staff") which may be responsive to document requests pertaining to Unified Contention Utah L/QQ contained in the "State of Utah's Twentieth Set of Discovery Requests Directed to the NRC Staff" (State's Twentieth Request):

1. ACI Committee 230, "State of the Art Report on Soil Cement," ACI 230.1R-90 (Reapproved in 1997).
2. Roberts, J.D. "Performance of Cement-Modified Soils: A Follow-Up Report." Transportation Research Record 1089, at 81-86. Washington, DC, Transportation Research Board, National Research Council, 1986.
3. Van Riessen, G.J. and Hansen, K.D. "Cement-Stabilized Soil for Coal Retaining Berms." Proceedings of the 1992 ASCE Specialty Conference on Grouting, Soil Improvement and Geosynthetics. New Orleans, LA, Feb. 25-28, 1992. ASCE Geotechnical Special Publication, Volume 2, Number 30. New York, NY. American Society of Civil Engineers, 1992.

To the extent that the Staff has previously produced documents relating to Utah Contention L (see, e.g., documents provided in response to the State's seventeenth set of discovery requests), such documents are not identified herein. Likewise, documents that are in the docket of the Private Fuel Storage ("PFS") proceeding (including legal correspondence, pleadings, Orders, license application submittals, and licensing-related correspondence) are not identified herein. Those materials should already be in the State's possession, as a result of the State's participation as a party in the PFS proceeding and its inclusion on the PFS and Staff service lists.

Denise Chancellor, Esq.

In the event that any further documents responsive to the State's discovery requests are located, they will be identified or forwarded promptly to the State.

Sincerely,

**/RA/**  
Martin J. O'Neill  
Counsel for NRC Staff
