

impacts associated with the proposed action.

With regard to potential nonradiological impacts, the proposed action does not have a potential to affect any historic sites. It does not affect nonradiological plant effluents and has no other environmental impact. Therefore, there are no significant nonradiological environmental impacts associated with the proposed action.

Accordingly, the NRC concludes that there are no significant environmental impacts associated with the proposed action.

Alternatives to the Proposed Action

As an alternative to the proposed action, the staff considered denial of the proposed action (i.e., the "no-action" alternative). Denial of the application would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are similar.

Alternative Use of Resources

This action does not involve the use of any different resource than those previously considered in the Final Environmental Statement for the Limerick Generating Station, Units 1 and 2, dated April 1984.

Agencies and Persons Consulted

On December 6, 2001, the staff contacted the Pennsylvania State official, Dennis Dyckman of the Pennsylvania Department of Environment and Natural Resources, regarding the environmental impact of the proposed action. The State official had no comments. In addition, the licensee notified the Federal Emergency Management Agency and the Pennsylvania Emergency Management Agency, who indicated support for rescheduling the exercise.

Finding of No Significant Impact

On the basis of the environmental assessment, the NRC concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the NRC has determined not to prepare an environmental impact statement for the proposed action.

Further details with respect to the proposed action can be found in the licensee's letter dated October 16, 2001. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the

ADAMS Public Library component on the NRC web site, <http://www.nrc.gov> (the Electronic Reading Room). Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS, should contact the NRC PDR Reference staff by telephone at 1-800-397-4209, or 301-415-4737, or by e-mail at pdr@nrc.gov.
