Description of Records:

We request copies of all documents pertaining to Entergy's response to the February 5, 2002 directive from NRC's Office of Nuclear Reactor Regulation requesting information (in connection with docket no. 50-247), to justify a five-year extension on the containment integrate leak rate test for Indian Point Nuclear Generating Unit No. 2, Westchester, NY. In addition, we request any documents submitted by Entergy that either proves or explains that the presence of rust in Indian Point 2's containment building poses no threat to the steel lining.
