Subject: Follow-up call W/ Jim Baumstark

I paged Jim earlier to set up a conference call to discuss our concerns regarding analysts identifying indications. He was in Pittsburgh with Westinghouse discussing the issue. I reiterated the issue in detail. And he said he was fully aware and understood.

In addition, Con Ed has completed three response to the "Topics of Discussion" from the May 3, 2000 meeting. They will be sending those in either today or tomorrow. The plan to "pile on" more documents next week. So it looks like we should start receiving some written documentation.
