RE: Complaint Regarding Abusive Behavior Entergy Employee, David Tarantino

I received a response in regard to my citizen complaint against an Entergy employee's behavior (TAC NO. MB3792). His behavior interfered with citizens exercising their responsibility to be our government's "eyes and ears" in the fight against terrorism by keeping a "neighborhood watch" on likely targets - such as the Pilgrim Nuclear Power Station.

NRC's response was less than satisfactory. My citizen complaint referred to untrue and disparaging remarks made to the press by David Tarantino, Public Relations Pilgrim NPS, about myself and others who expressed concern about terrorist threats to Pilgrim NPS.

Perhaps due to the lack of real response by NRC, David Tarantino's unacceptable behavior has escalated. Mr. Tarantino threatened a member of the media in public, with witnesses. Right before the Plymouth Selectmen's Meeting (February 26, 7:00 PM), the incident occurred. Outside the Selectmen's Meeting Room, inside Plymouth Town Hall, Mr. Tarantino thrust his finger in the face of a member of the media and in a loud, abusive voice said, "You better watch what you say about me... there are a lot of trashcans on the side of the road." There were multiple witnesses. Mark announced the incident to all those seated in the Meeting Hall - the room was full- and over local Cable TV.

We need cool heads working at our nuclear power plants, at all times. Are we back to the Ralph Bird days?

Thank you in advance for responding to this matter,

Mary Lampert
