Dear Mr. Schrock:

SUBJECT: AMENDMENT NO. 103 TO FACILITY OPERATING LICENSE NO. DPR-43
(TAC NO. M86926)

The Commission has issued the enclosed Amendment No.103 to Facility Operating License No. DPR-43 for the Kewaunee Nuclear Power Plant. This amendment revises the Technical Specifications in response to your application dated June 22, 1993.

The amendment changes the Kewaunee Nuclear Power Plant (KNPP) Technical Specifications (TS) Section 1.0 to define frequency notations for surveillance requirements. Sections 3.2 and 3.3 have been revised to incorporate formatting changes and to correct minor typographical errors as part of converting the TS document to the WordPerfect software. In Section 3.10, "every shift" has been changed to "at least once per 8 hours" as applicable. Section 4.2 has been changed to revise an incorrect reference, and Section 6 has been revised to remove audit frequencies, define "vital areas," and extend the reporting period for the Radioactive Effluent Release Report from semiannual to annual.

A copy of the Safety Evaluation is also enclosed. Notice of issuance will be included in the Commission's next regular biweekly Federal Register notice.

Sincerely,
