Docket No. 999-90001

General License

Dodi Conley  
Assistant Manager  
Edgewater Manor Apartments  
120 Elm Street  
Beverly, NJ 08010

SUBJECT: INSPECTION 99990001/2001001, EDGEWATER MANOR APARTMENTS ,  
BEVERLY, NEW JERSEY

Dear Ms. Conley:

On October 2, 2001, Sattar Lodhi of this office visited your facility in response to your telephone call of October 2, 2001, informing this office that your personnel had removed an "EXIT" sign that had been damaged some time ago. Mr. Lodhi reviewed the handling of the damaged "EXIT" sign by your personnel, storage of the damaged sign, and your plans to dispose of the damaged sign. The device, an Isolite Model 2000 (Serial No. A49660) containing 7.5 curies of hydrogen-3 (tritium) was acquired by you under the general license in 10 CFR 31.5.

Mr. Lodhi collected samples from the personnel who handled the damaged sign, several spots at the damaged sign, the location where the sign was installed, nearby stairs and handrails, and the seat of the vehicle that was used to transport the damaged sign to your storage location. The collected samples were analyzed in our laboratory in Region I. Analysis of these samples did not indicate any significant contamination of your personnel, stairs, handrails or the transport vehicle. Mr. Lodhi also verified that you had appropriately stored the damaged device to prevent spread of contamination. From the telephone conversation on February 13, 2002, between you and Sattar Lodhi of this office we understand that you have transferred the damaged device to Isolite Corporation.

In accordance with 10 CFR 2.790, a copy of this letter will be placed in the NRC Public Document Room and will be accessible from the NRC Web site at <http://www.nrc.gov/reading-rm.html>. No reply to this letter is required.

If you have any questions, you may contact Dr. Lodhi at (610) 337-5364. Your cooperation with us is appreciated.

Sincerely,

***Original signed by John D. Kinneman***
