

JAN 3 1975

Docket No. 50-255

Consumers Power Company
ATTN: Mr. R. C. Youngdahl
Senior Vice President
212 West Michigan Avenue
Jackson, Michigan 49201

Gentlemen:

Enclosed for your information is a Corrected Notice of Receipt of Application of Facility Operating License and Availability of Licensee's Environmental Report: Notice of Consideration of Conversion of Provisional Operating License to Full-Term Operating License: Notice of Opportunity for Hearing, originally published in the Federal Register on December 18, 1974. The notice, as originally published, inadvertently omitted a portion of the description of the required content of petitions for leave to intervene. Accordingly, the date by which timely petitions for leave to intervene must be filed is extended beyond the original date of January 17, 1975, to January 29, 1975, as indicated in the corrected notice.

The corrected notice has been forwarded to the Office of the Federal Register for filing and publication.

Sincerely,

Original signed by:
Robert A. Purple

UNITED STATES ATOMIC ENERGY COMMISSION

DOCKET NO. 50-255

CONSUMERS POWER COMPANY

CORRECTED

NOTICE OF RECEIPT OF APPLICATION OF FACILITY OPERATING
LICENSE AND AVAILABILITY OF LICENSEE'S ENVIRONMENTAL
REPORT: NOTICE OF CONSIDERATION OF CONVERSION OF
PROVISIONAL OPERATING LICENSE TO FULL-TERM OPERATING
LICENSE: NOTICE OF OPPORTUNITY FOR HEARING

This is a correction to the Notice of Receipt of Application of Facility Operating License and Availability of Licensee's Environmental Report: Notice of Consideration of Conversion of Provisional Operating License to Full-Term Operating License: Notice of Opportunity for Hearing, originally published in the Federal Register on December 18, 1974. The notice, as originally published, inadvertently omitted a portion of the description of the required content of petitions for leave to intervene. Accordingly, the date by which timely petitions for leave to intervene must be filed is extended beyond the original date of January 17, 1975, to January 29, 1975, as indicated in this corrected notice.

Notice is hereby given that the Atomic Energy Commission (the Commission) has received an application for a full-term facility operating license from the Consumers Power Company (the licensee) to possess, use, and operate the Palisades Plant (the facility), located in Covert Township on the licensee's site in Van Buren County, Michigan, at an increased power level of up to 2638 megawatts thermal. The currently authorized full-power level is up to 2200 megawatts thermal.

The licensee has also filed, pursuant to the National Environmental Policy Act of 1969 and the regulations of the Commission in Appendix D to 10 CFR Part 50, a special environmental report which discusses environmental considerations related to the proposed operation of the facility.

The Commission will consider the licensee's special environmental report in accordance with the provisions of 10 CFR Part 51.

The Commission will consider the issuance of a full-term facility operating license to the Consumers Power Company which would authorize the licensee to possess, use, and operate the Palisades Plant in accordance with the provisions of the license and the technical specifications appended thereto upon: (1) the completion of a favorable safety evaluation on the application by the Commission's Directorate of Licensing; (2) the completion of the environmental review required by the Commission's regulations in 10 CFR Part 51; (3) the receipt of a report on the licensee's application by the Advisory Committee on Reactor Safeguards; and (4) a finding by the Commission that the application for a full-term facility operating license, as amended, complies with the requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations in 10 CFR Chapter I. Construction of the facility was authorized by Construction Permit No. CPPR-25, issued by the Commission on March 13, 1967. The facility is presently being operated in accordance with Provisional Operating License No. DPR-20, as amended.

The full-term facility operating license will not be issued until the Commission has made the findings, reflecting its review of the application under the Act, which will be set forth in the proposed license and has concluded that the issuance of the license will not be inimical to the common defense and security or to the health and safety of the public. The licensee has satisfied its obligation concerning indemnification as required by Section 170 of the Act and 10 CFR Part 140 of the Commission's regulations.

Within thirty (30) days from the date of publication of this notice in the FEDERAL REGISTER, the licensee may file a request for a hearing with respect to issuance of the full-term facility operating license and any person whose interest may be affected by this proceeding may file a petition for leave to intervene. Requests for a hearing and petitions for leave to intervene shall be filed in accordance with the Commission's "Rules of Practice" in 10 CFR Part 2. If a request for a

hearing or petition for leave to intervene is filed within the time prescribed in this notice, the Commission or an Atomic Safety and Licensing Board designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel will rule on the request and/or petition and the Secretary or the designated Atomic Safety and Licensing Board will issue a notice of hearing or an appropriate order.

A petition for leave to intervene must be filed under oath or affirmation in accordance with the provisions of 10 CFR Section 2.714. As required in 10 CFR Section 2.714, a petition for leave to intervene shall set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and any other contentions of the petitioner, including the facts and reasons why he should be permitted to intervene, with particular reference to the following factors: (1) the nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. Any such petition shall be accompanied by a supporting affidavit identifying the specific aspect or aspects of the subject matter of the proceeding as to which the petitioner wishes to intervene and setting forth with particularity both the facts pertaining to his interest and the basis for his contentions with regard to each aspect on which he desires to intervene. A petition that sets forth contentions relating only to matters outside the jurisdiction of the Commission will be denied.

A request for a hearing or a petition for leave to intervene must be filed with the Secretary of the Commission, United States Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Docketing and Service Section or may be delivered to the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., by

JAN 29 1975.

A copy of the petition and/or request should also be sent to the Chief Hearing Counsel, Office of the General Counsel, Regulation, U.S. Atomic Energy Commission, Washington, D.C. 20545 and to Judd L. Bacon, Senior Attorney, Consumers Power Company, 212 West Michigan Avenue, Jackson, Michigan 49201 and R. Rex Renfrow, III, Esquire, Isham, Lincoln & Beale, One First National Plaza, Chicago, Illinois 60670, attorneys for the licensee.

A petition for leave to intervene which is not timely will not be granted unless the Commission, the presiding officer, or the Atomic Safety and Licensing Board designated to rule on the petition determines that the petitioner has made a substantial showing of good cause for failure to file on time and after considering those factors specified in 10 CFR Section 2.714(a)(1)-(4) and Section 7.14(d).

For further details with respect to the matters under consideration, see the licensee's application dated January 22, 1974, which also contains the licensee's special environmental report (Section 7), which is available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., and at the Kalamazoo Public Library, 315 South Rose Street, Kalamazoo, Michigan. The Commission's Final Environmental Statement issued June 1972 is available for public inspection at the above locations, and as they become available, the following documents may be inspected at the above locations: (1) the safety evaluation report prepared by the Directorate of Licensing; (2) the Commission's consideration of the licensee's special environmental report pursuant to

10 CFR Part 51; and (3) the report of the Advisory Committee on Reactor Safeguards on the application for a full-term facility operating license.

Copies of the Commission's Final Environmental Statement issued June 1972 and copies of items (1) through (3), when available, may be obtained upon request addressed to the United States Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing - Regulation.

Dated at Bethesda, Maryland, this DEC 23 1974

FOR THE ATOMIC ENERGY COMMISSION
