

March 22, 2002

Mr. Donald Keldsen
Assistant Director of Operations
Maryland Emergency Management Agency
2 Sudbrook Lane
Pikesville, MD 21208

SUBJECT: CALVERT CLIFFS NUCLEAR POWER PLANT, INC - ANNUAL ASSESSMENT
OF SAFETY PERFORMANCE

Dear Mr. Keldsen:

I would like to personally invite you and other members of your organization to attend a meeting between the Nuclear Regulatory Commission (NRC) and Calvert Cliffs Nuclear Power Plant, Inc. (CCNPPI) in which we will discuss our annual assessment of the safety performance of the Calvert Cliffs Nuclear Power Plant (Calvert Cliffs), Units 1 and 2.

The meeting will be held at 10:00 a.m. on Friday, April 5, 2002, at the Calvert Cliffs Visitor and Education Center, 1650 Calvert Cliffs Parkway, Lusby, Maryland, and is open to the public for observation. At the meeting we will briefly discuss our Reactor Oversight Process and then discuss with CCNPPI our assessment of the safety performance of Calvert Cliffs and their response to our assessment. The NRC staff will be available following the meeting to answer questions from you and members of the public regarding the safety performance of Calvert Cliffs and the role of the NRC in ensuring safe plant operations.

The NRC recently completed its annual performance assessment of the safety performance of Calvert Cliffs in accordance with the NRC Reactor Oversight Process. Our assessment used the most recent performance indicator data and inspection findings from April 1, 2001 through December 31, 2001. We documented our assessment results in a letter to CCNPPI on March 4, 2002; a copy of that letter is attached.

You may obtain additional information about the Reactor Oversight Process, the information we used in our annual assessment, and the specific safety performance of Calvert Cliffs using the NRC Web site. This information may be accessed at <http://www.nrc.gov/NRR/OVERSIGHT/ASSESS.index.html>.

Your schedule permitting, I look forward to meeting you on April 5, 2002. In the interim, please do not hesitate to contact me at 610-337-5224, if I can be of further assistance to you.

Sincerely,
/RA by

At the meeting we will briefly discuss our Reactor Oversight Process and then discuss with CCNPPI our assessment of the safety performance of Calvert Cliffs and their response to our assessment. The NRC staff will be available following the meeting to answer questions from you and members of the public regarding the safety performance of Calvert Cliffs and the role of the NRC in ensuring safe plant operations.

The NRC recently completed its annual performance assessment of the safety performance of Calvert Cliffs in accordance with the NRC Reactor Oversight Process. Our assessment used the most recent performance indicator data and inspection findings from April 1, 2001 through December 31, 2001. We documented our assessment results in a letter to CCNPPI on March 4, 2002; a copy of that letter is attached.

You may obtain additional information about the Reactor Oversight Process, the information we used in our annual assessment, and the specific safety performance of Calvert Cliffs using the NRC Web site. This information may be accessed at <http://www.nrc.gov/NRR/OVERSIGHT/ASSESS.index.html>.

Your schedule permitting, I look forward to meeting you on April 5, 2002. In the interim, please do not hesitate to contact me at 610-337-5224, if I can be of further assistance to you.

Sincerely,
/RA by

Mr. John A. Bartlett, Jr., Sheriff
Calvert County
Courthouse
Prince Frederick, MD 20678

SUBJECT: CALVERT CLIFFS NUCLEAR POWER PLANT, INC - ANNUAL ASSESSMENT
OF SAFETY PERFORMANCE

Dear Mr. Bartlett:

I would like to personally invite you and other members of your organization to attend a meeting between the Nuclear Regulatory Commission (NRC) and Calvert Cliffs Nuclear Power Plant, Inc. (CCNPPI) in which we will discuss our annual assessment of the safety performance of the Calvert Cliffs Nuclear Power Plant (Calvert Cliffs), Units 1 and 2.

The meeting will be held at 10:00 a.m. on Friday, April 5, 2002, at the Calvert Cliffs Visitor and Education Center, 1650 Calvert Cliffs Parkway, Lusby, Maryland, and is open to the public for observation. At the meeting we will briefly discuss our Reactor Oversight Process and then discuss with CCNPPI our assessment of the safety performance of Calvert Cliffs and their response to our assessment. The NRC staff will be available following the meeting to answer questions from you and members of the public regarding the safety performance of Calvert Cliffs and the role of the NRC in ensuring safe plant operations.
