### Utilities – Resolution Urging the Replacement of Steam Generators At Con Edison’s Indian Point 2 Nuclear Plant

Whereas, the Town of Ossining is within a 10 mile radius of Con Edison’s Indian Point 2 Nuclear Plant in Buchanan, and

Whereas, Con Edison has operated over the past 25 years the oldest Westinghouse generators of the kind in the country, and

Whereas, despite repeated servicing of this aging equipment, a level 2 radioactive leak occurred on February 15, 2000, and

Whereas, the Town Board of the Town of Ossining is concerned about the health and safety of Ossining residents;

Now, Therefore, Be It Resolved, that the Town Board of the Town of Ossining strongly encourages Con Edison and the Nuclear Regulatory Commission to replace its steam generators immediately.

STATE OF NEW YORK )  
COUNTY OF WESTCHESTER ) ss.:  
TOWN OF OSSINING )

I, Mary Ann Roberts, Town Clerk of the Town of Ossining, Westchester County, New York, DO HEREBY CERTIFY, that I have compared the foregoing with the original resolution adopted by the Town Board at a meeting held on the 11 day of April, 2000, and that the foregoing is a true and correct copy of the original thereof. I DO FURTHER CERTIFY that John Chervokas Supervisor, and Michael G. O'Connor Councilmembers were present at such meeting and Councilmember Penn was absent.

IN WITNESS WHEREOF, I have hereunto set my hand and the seal of the Town of Ossining this 12 day of April, 2000. W/130

Dear Mr. Evans:

We, the elected officials who represent those within a ten mile radius of Con Edison's Indian Point 2 nuclear plant in Buchanan, demand that you replace your steam generators now in the wake of the February 15 radioactive leak.

Nearby Indian Point 3 operated by the New York Power Authority replaced its same Westinghouse manufactured steam generators in 1989 at a cost of \$110 million. Meanwhile, Con Ed's equipment continues to operate over these past 25 years as the oldest Westinghouse generators of the kind in the country.

We who live in the area are concerned about our health and safety. Repeated servicing of these aging generators has not prevented a significant level 2 radioactive leak from occurring. We believe that the answer is to stop fixing and start installing the new generators that are already at your plant site.

Sincerely,

# Help Make "Safety First" at Con Ed's Indian Point Plant

Thirty elected officials within a ten-mile radius of Con Edison's Indian Point 2 nuclear plant in Buchanan are calling for change to enhance the safety of the facility. Please join our effort by signing the letter below and mailing it back to me. I will forward it to the appropriate officials.

To Con Edison, the Nuclear Regulatory Commission, and the Public Service Commission:

We join our elected officials and call on Con Edison to replace the old, leaking steam generators now at the Indian Point 2 nuclear plant in Buchanan. The new, replacement generators have been on site for twelve years. With the recent serious level 2 alert, there is no reason to wait. All other plants with the same make and model generators have replaced their equipment. Only Con Ed has not. We are concerned about our health and safety and demand this action. Con Ed must put in new steam generators now.

now at the Indian Point 2 nuclear plant in Buchanan. The new equipment is on site for twelve years. With the recent serious level 2 alert, there is no reason to wait. All other plants with the same make and model generators have replaced their equipment. Only Con Ed has not. We are concerned about our health and safety and demand this action. Con Ed must put in new steam generators now.
