Greg,

Rick informed me that there was a phone call on June 29, 1997 between Indian Point 2 folks and the NRC staff that I missed in my write-up. The June 29, 1997 phone call was between Region I staff and the licensee. I do not believe EMCB staff was involved the phone call.

I called Jimi Yerokun of Region I on 11/2/00. He stated that the licensee did not mention any U-bend indication(s) in the 6/29/97 phoen call.

I understand that you will forward the write-up to the Region I office. They may shed some light on the contents of the 6/29/97 phone call.

thx

John
