Attention: Mr. D. A. Brown

Gentlemen:

This refers to your letter dated October 28, 1963, from D. A. Brown concerning amendment to Byproduct Material License Number 37-9442-1.

The fifteen sealed sources containing no more than 0.5 microcurie of Chlorine 36, Strontium 90, or Bismuth 210 may be possessed and used under a general license to your company pursuant to Sections 30.21(a)(2) and 30.72 of 10 CFR 30, provided no more than a total of ten such scheduled quantities listed in Column II, Schedule B, 30.72, are possessed and used under the general license. Therefore, no further action will be taken on your application. If the general license does not satisfy your requirements, further clarification will be necessary, to include identification of the sources by manufacturer and model number.

Sincerely yours,

Robert E. Brinkman
