Attention: Mr. L. D. Low, Director

Reference: AEC By-Product Material License No. 37-09442-01

Dear Mr. Low:

This letter is to inform you that Westinghouse Astronuclear Laboratory has begun limited operation of its new Radiation Calibration Facility (RCF) at Waltz Mill.

The referenced license has been amended to include the facility and the WANL Radiation Safety Committee has approved operating procedures for the RCF. We believe that the RCF is in full compliance with the requirements of the regulations and invite you to visit the facility at your convenience.

Sincerely yours,

*M R Beebe*

M. R. Beebe, Manager  
WANL Industrial Hygiene
