U.S. Nuclear Regulatory Commission
Washington, D.C. 20555-0001

Ref: SUMI-SFI-008 / FRRX-SFI-013 Irradiated Reactor Fuel Transport

Dear Ms. Bennington:

We are resending the enclosed notification, which we originally attempted to send via Federal Express on September 17, 2001. As you know, DOE suspended all shipments of nuclear material on September 12. On September 17 DOE authorized the shipment to proceed as outlined in the enclosed notification. We have asked Federal Express to investigate what happened to the original package and are awaiting their reply. Please let us know if you should happen to receive the original notification. We apologize for the delay in receipt of the notification, but hope that you understand this situation.

Sincerely yours,

Franchone Oshinowo
Vice President, Spent Fuel Program
