> Bill/Pete - Last week we had the meeting in King of Prussia on the 97
> Steam Generator Inspection. There were a number of follow up questions
> that we had to provide additional information on. One of them was to
> provide the distributions used in the Monte Carlo calculations we
> presented 9/26/00. Here is the information plus a write up responding to
> some clarification questions on the Monte Carlo calculations. Please let
> me know if there are any other questions. I dropped a copy off in your
> office also. Jack
