Subject: Re: Con Ed Appeal Date

don't know or not whether they will get an extension..I heard they want to request one...

we told them to put it in writing...they plan to do today...

will get it to you...as we talked before...they are looking at an appeal of the viol...not the RED finding itself...so i don't expect risk arguments needed...they will attack corr. action aspect, if anything...

B

more when i see it...but i'm fighting design issues and looming startup...

Brian,

I understand that Con Ed is going to be granted an extension on the 30 day appeal clock for the SG NOV. Can you tell me how long and whether the appeal will involve risk issues? (I'm trying to actually PLAN some things for next year.)

Steve
