RE: Cabot Corp., Reading PA SDMP Site

Dear Mr. Camper:

In NRC's recent letter to DEP (George Pangburn to David Allard, August 7, 2000), we were advised that NRC's target date for approval of the Decommissioning Plan for the Cabot Corp. Reading site remains September 2000.

We are reviewing the Cabot Decommissioning Plan and related information, and will provide any significant comments to you shortly. However, as NRC recognized some time ago, the key technical issues are the dose assessments and scenarios that Cabot has utilized to support their proposal that no decommissioning activities are required to terminate the NRC license for this site. It is our understanding that the NRC has these dose assessments and scenarios under review by Sandia Laboratory.

DEP would appreciate an opportunity and adequate time to review the results of Sandia's work, prior to NRC taking action on the Cabot proposal. Our review will be expedited to the maximum possible extent, consistent with satisfying any concerns that DEP may have about the Cabot proposal. Please contact us as soon as the Sandia results are available.

We would also like an update on the status of the requested hearing by September 20, 2000 on the Cabot proposal.

C/S

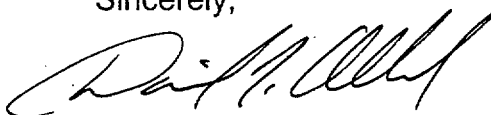

Mr. Larry Camper, Chief

We appreciate the excellent cooperation that now exists between our two organizations and look forward to working with NRC in the oversight of the SDMP sites in the Commonwealth.

Sincerely,

A handwritten signature in black ink, appearing to read "David Allard", written in a cursive style.

David Allard, CHP  
Director
