

Nebraska Public Power District
Nebraska's Energy Leader

NLS2002016
January 24, 2002

U.S. Nuclear Regulatory Commission
Attention: Document Control Desk
Washington, D.C. 20555-0001

Gentlemen:

Subject: Application for Renewal of Operating License
Cooper Nuclear Station, NRC Docket 50-298, DPR-46

Reference: NPPD Letter No. NLS2000012 to U.S. Nuclear Regulatory Commission from
J. H. Swailes (NPPD) dated February 17, 2000 - Intent to Apply for Renewal of
Operating License

In the referenced letter, Nebraska Public Power District (NPPD) informed the Nuclear
Regulatory Commission (NRC) of its intent to apply for renewal of Operating License DPR-46
for Cooper Nuclear Station. The original target for submittal was 2003.

NPPD is focusing its resources on near term priorities and has decided to delay its application for
license renewal beyond 2003. NPPD will inform the NRC of its revised date when plans and a
schedule to submit an application for license renewal are developed.

Should you have any questions concerning this matter, please contact me.

Sincerely,

David L. Wilson
Vice President of Nuclear Energy
