In response to the Commission's Show Cause Order issued on January 2, 1980, your submittal dated January 18, 1980 provided documentation indicating that completion of some of the Category A requirements for the Monticello Nuclear Generating Station necessitates equipment which is expected to become available on the following schedule:

<u>Item</u>	<u>Delivery Date</u>
2.1.4	January 18, 1980

After reviewing this matter, we conclude that you have shown that for this item the implementation schedule of within 30 days of receipt of the equipment but no later than June 1, 1980, as specified in the Order, is appropriate.

As indicated in our letter dated October 30, 1979, the acceptability of your implementation of each Category A item (excluding 2.1.7a) will be the subject of post implementation review. Should your information concerning the availability of the equipment change, notify this office within five days of receipt of the new information.

Sincerely,

Original signed by

Harold Denton, Director  
Office of Nuclear Reactor Regulation

Mr. L. O. Mayer, Manager  
Nuclear Support Services  
Northern States Power Company  
414 Nicollet Mall - 8th Floor  
Minneapolis, Minnesota 55401

Dear Mr. Mayer:

In response to the Commission's Order issued on January 2, 1980, your submittal dated January 18, 1980 provided documentation indicating that completion of the required Category A requirements for the Monticello Nuclear Generating Plant necessitates equipment which is not expected to become available until January 18, 1980.

After reviewing this matter, we have concluded that you have demonstrated a best effort for timely implementation of Category A requirements and that adequate justification has been made for continued operation of the Monticello Plant beyond January 31, 1980. Therefore, pursuant to the Order, the time to complete the Category A requirements has been extended to February 18, 1980 which is within 30 days of the expected receipt of equipment.

In accordance with the Order, should your information concerning the availability of the equipment be changed, notify this office within five days of receipt of the new information.

Sincerely,

Harold Denton, Director  
Office of Nuclear Reactor Regulation
