

ENVIRONMENTAL RESEARCH GROUP, INC.

117 N. First Ann Arbor, Michigan 48104 (313) 662-3104

August 27, 1981

Mr. Glyn Bindon
 President
 Leadership Keys, Inc.
 25304 Farmington Road
 Farmington Hills, Michigan 48204

Dear Mr. Bindon:

It was a pleasure to see you last week and discuss your needs. As we agreed, this letter is provided to describe services and rates that Environmental Research Group, Inc. (ERG) offers to you in obtaining licenses from the Nuclear Regulatory Commission (NRC) and to analyze gunsights for tritium.

Assistance with the NRC and initial analyses of gunsights prior to a routine testing program will be provided by Dr. Henry Griffin, ERG Manager of Nuclear Studies, and his assistant, Mary Barker. The rates for consulting services are:

Griffin	\$75.00/hour
Barker	\$40.00/hour

Analyses of gunsights (in lots of 70 or more) will be done at \$5.00 per gunsight. The testing will involve wiping the gunsights and analyses of the wipe material for tritium by liquid scintillation counting procedures.

Sample delivery may be made to ERG any weekday. I may be able to pick up samples occasionally at your home, depending on my schedule.

ERG agrees to keep the above prices firm for a period of one year with the understanding that we can negotiate modifications should the sample lots vary considerably from 70.

Sincerely,

Fred Beyer
 Marketing Representative
