Phone (708) 790-5625
FAX (708) 790-5183

Dear Ms. Watson,

Attached are copies of the two letters from 1982 you requested. As I anticipated, both deal with our prior general license and do not pertain to our current license. I believe that the January 11th letter was from a consultant and was mailed to you as part of a later letter. It totals 3 pages. (Please note that Leadership Keys, Inc. and Armson, Inc. were both prior names of the same company which is now Trijicon, Inc.)

I have also attached an updated copy of a statement sent earlier concerning my qualifications as Radiation Safety Officer.

Thank you,

Stephen G. Bindon
General Manager

Stephen G. Bindon has a Bachelor's degree in Chemical Engineering from the University of Michigan. He has a background in physics including study of radioactive isotopes in the pursuit of this degree. He has prepared dose and other calculations for Trijicon's license applications to the NRC. He has functioned as de facto Radiation Safety Officer at Trijicon since late 1986. He also witnessed testing on Trijicon's devices containing radioactive tritium at the facilities of ERG (now TMA) of Ann Arbor Michigan since 1983.
