

## **BULLETIN 2002-01**

**“Reactor Pressure Vessel Head Degradation and Reactor Coolant Pressure Boundary Integrity,” dated March 18, 2002**

**Background**

**Supplemental information**

**Contributing factors**

## **BULLETIN - 15-DAY RESPONSE**

**Summary of reactor pressure vessel head inspection & maintenance programs**

**Evaluation of ability of inspection and maintenance programs to identify degradation**

**Description of conditions that could lead to degradation and corrective actions taken to address such conditions**

**Plans, basis and schedule for future inspections of the reactor vessel head and vessel head penetration nozzles**

**Basis for continued operation until the inspections are performed**

# **BULLETIN - 30 AND 60 DAY RESPONSES**

**Within 30 days following outage**

**Results of inspections**

**Within 60 days of date of bulletin**

**Basis for concluding boric acid inspection program is effectively maintaining reactor coolant pressure boundary integrity**
