SUBJECT: LICENSE AMENDMENTS TO INCORPORATE PHYSICAL SECURITY PLAN  
(TAC NOs. 65386 AND 65387)

Re: Quad Cities Nuclear Power Station, Units 1 and 2

The Commission has issued the enclosed Amendment Nos. 108 and 103 to Facility Operating License Nos. DPR-29 and DPR-30 for the Quad Cities Nuclear Power Station (QCNP), Units 1 and 2, in response to your submittals dated November 26, 1986, and January 14, 1988.

These amendments modify paragraph 3.E of each license to require compliance with the revised Physical Security Plan. This Plan was revised, in order to conform with the latest requirements of 10 CFR 73.55. Furthermore, to be consistent with the provisions of 10 CFR 73.55, search requirements prescribed by the approved Plan must be implemented within 60 days and miscellaneous amendments within 180 days from the effective date of these license amendments.

Our review of your updated Physical Security Plan for the QCNP is contained in the enclosed Safeguards Evaluation Report. Based on this evaluation, we conclude that you meet the revised requirements of 10 CFR 73.55 for Miscellaneous Amendments and Search Requirements, and associated record reporting requirements of 10 CFR 73.70.

We have found that these license amendments are related solely to safeguards matters and do not involve any significant station modifications. Accordingly, these amendments comply with the eligibility criteria for categorical exclusion set forth in 10 CFR 51.22(c)(12). As such, pursuant to 10 CFR 51.22(b), no environmental impact statement or environmental assessment need be prepared in connection with the issuance of these amendments. And, since these license amendments merely incorporate your updated Physical Security Plan, the NRC has concluded there is reasonable assurance the health and safety of the public will not be endangered by this Plan, and that it will be conducted in compliance with the Commission's regulations. Furthermore, the issuance of these amendments will not be inimical to the common defense and security, or to the health and safety of the public.

Docket Nos.: 50-254  
and 50-265

June 9, 1988

Mr. Henry Bliss  
Nuclear Licensing Manager  
Commonwealth Edison Company  
Post Office Box 767  
Chicago, Illinois 60690

Dear Mr. Bliss:

SUBJECT: LICENSE AMENDMENTS TO INCORPORATE PHYSICAL SECURITY PLAN  
(TAC NOS. 65386 AND 65387)

Re: Quad Cities Nuclear Power Station, Units 1 and 2

The Commission has issued the enclosed Amendment Nos. 108 and 103 to Facility Operating License Nos. DPR-29 and DPR-30 for the Quad Cities Nuclear Power Station (QCNPS), Units 1 and 2, in response to your submittals dated November 26, 1986, and January 14, 1988.

These amendments modify paragraph 3.E of each license to require compliance with the revised Physical Security Plan. This Plan was revised, in order to conform with the latest requirements of 10 CFR 73.55. Furthermore, to be consistent with the provisions of 10 CFR 73.55, search requirements prescribed by the approved Plan must be implemented within 60 days and miscellaneous amendments within 180 days from the effective date of these license amendments.

Our review of your updated Physical Security Plan for the QCNPS is contained in the enclosed Safeguards Evaluation Report. Based on this evaluation, we conclude that you meet the revised requirements of 10 CFR 73.55 for Miscellaneous Amendments and Search Requirements, and associated record reporting requirements of 10 CFR 73.70.

We have found that these license amendments are related solely to safeguards matters and do not involve any significant station modifications. Accordingly, these amendments comply with the eligibility criteria for categorical exclusion set forth in 10 CFR 51.22(c)(12). As such, pursuant to 10 CFR 51.22(b), no environmental impact statement or environmental assessment need be prepared in connection with the issuance of these amendments. And, since these license amendments merely incorporate your updated Physical Security Plan, the NRC has concluded there is reasonable assurance the health and safety of the public will not be endangered by this Plan, and that it will be conducted in compliance with the Commission's regulations. Furthermore, the issuance of these amendments will not be inimical to the common defense and security, or to the health and safety of the public.

Your Physical Security Plan consists of Safeguards Information required to be protected from unauthorized disclosure in accordance with the provisions of 10 CFR 73.21.

A Notice of Issuance will be included in the Commission's biweekly Federal Register notices.

Sincerely,

Thierry Ross, Project Manager  
Project Directorate III-2  
Division of Reactor Projects - III,

IOWA-ILLINOIS GAS AND ELECTRIC COMPANY

DOCKET NO. 50-254

QUAD CITIES NUCLEAR POWER STATION, UNIT 1

AMENDMENT TO FACILITY OPERATING LICENSE

Amendment No. 108  
License No. DPR-29

1. The Nuclear Regulatory Commission (the Commission) has found that:
  - A. The applications for amendments by Commonwealth Edison Company (the licensee) dated November 26, 1986 and January 14, 1988, comply with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act) and the Commission's rules and regulations set forth in 10 CFR Chapter I;
  - B. The facility will operate in conformity with the application, the provisions of the Act, and the rules and regulations of the Commission;
  - C. There is reasonable assurance (i) that the activities authorized by this amendment can be conducted without endangering the health and safety of the public, and (ii) that such activities will be conducted in compliance with the Commission's regulations;
  - D. The issuance of this amendment will not be inimical to the common defense and security or to the health and safety of the public; and
  - E. The issuance of this amendment is in accordance with 10 CFR Part 51 of the Commission's regulations and all applicable requirements have been satisfied.
2. Accordingly, paragraph 3.E of Facility Operating License No. DPR-29 is hereby amended to read as follows:

8806230314 880609  
PDR ADOCK 05000254  
F PDR

The licensee shall fully implement and maintain in effect all provisions of the Commission approved physical security, guard training and qualification, and safeguards contingency plans including amendments made pursuant to provisions of the Miscellaneous Amendments and Search Requirements revisions of 10 CFR 73.55 (51 FR 27817 and 27822), and to the authority of 10 CFR 50.90 and 10 CFR 50.54(p). These plans, which contain Safeguards Information protected under 10 CFR 73.21, are entitled: "Quad-Cities Nuclear Power Station Security Plan," with revisions submitted through January 14, 1988; "Quad-Cities Nuclear Power Station Security Personnel Training and Qualification Plan," with revisions submitted through October 29, 1987; and "Quad-Cities Nuclear Power Station Safeguards Contingency Plan," with revisions submitted through February 16, 1984. Changes made in accordance with 10 CFR 73.55, shall be implemented in accordance with the schedule set forth therein.

3. This license amendment is effective as of the date of its issuance.

DOCKET NO. 50-265

QUAD CITIES NUCLEAR POWER STATION, UNIT 2

AMENDMENT TO FACILITY OPERATING LICENSE

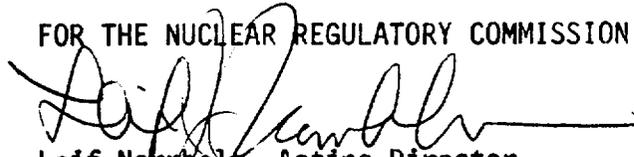

Amendment No. 103  
License No. DPR-30

1. The Nuclear Regulatory Commission (the Commission) has found that:
  - A. The applications for amendments by Commonwealth Edison Company (the licensee) dated November 26, 1986 and January 14, 1988, comply with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act) and the Commission's rules and regulations set forth in 10 CFR Chapter I;
  - B. The facility will operate in conformity with the application, the provisions of the Act, and the rules and regulations of the Commission;
  - C. There is reasonable assurance (i) that the activities authorized by this amendment can be conducted without endangering the health and safety of the public, and (ii) that such activities will be conducted in compliance with the Commission's regulations;
  - D. The issuance of this amendment will not be inimical to the common defense and security or to the health and safety of the public; and
  - E. The issuance of this amendment is in accordance with 10 CFR Part 51 of the Commission's regulations and all applicable requirements have been satisfied.
2. Accordingly, paragraph 3.E of Facility Operating License No. DPR-30 is hereby amended to read as follows:

The licensee shall fully implement and maintain in effect all provisions of the Commission approved physical security, guard training and qualification, and safeguards contingency plans including amendments made pursuant to provisions of the Miscellaneous Amendments and Search Requirements revisions of 10 CFR 73.55 (51 FR 27817 and 27822), and to the authority of 10 CFR 50.90 and 10 CFR 50.54(p). These plans, which contain Safeguards Information protected under 10 CFR 73.21, are entitled: "Quad-Cities Nuclear Power Station Security Plan," with revisions submitted through January 14, 1988; "Quad-Cities Nuclear Power Station Security Personnel Training and Qualification Plan," with revisions submitted through October 29, 1987; and "Quad-Cities Nuclear Power Station Safeguards Contingency Plan," with revisions submitted through February 16, 1984. Changes made in accordance with 10 CFR 73.55, shall be implemented in accordance with the schedule set forth therein.

3. This license amendment is effective as of the date of its issuance.

SAFEGUARDS EVALUATION REPORT

MISCELLANEOUS AMENDMENTS AND SEARCH REQUIREMENTS

COMMONWEALTH EDISON COMPANY

QUAD-CITIES NUCLEAR POWER STATION, UNITS 1 AND 2

1.0 INTRODUCTION

The Commonwealth Edison Company (CECO, the licensee) has filed with the Nuclear Regulatory Commission revisions to their Physical Security Plan for the Quad-Cities Nuclear Power Station, Units 1 and 2.

This Safeguards Evaluation Report (SGER) summarizes how the licensee proposes to meet the Miscellaneous Amendments and Search Requirements revisions of 10 CFR Part 73.55.

Based on a review of the Physical Security Plan, the staff has concluded that the proposed changes satisfy Miscellaneous Amendments and Search Requirements revisions to 10 CFR 73.55 (51 FR 27817 and 27822) and accompanying 10 CFR 73.70 record reporting requirements. Accordingly, the protection provided will ensure that the public health and safety will not be endangered.

2.0 PERSONNEL SEARCH

The licensee has provided commitments in the Physical Security Plan to provide a search of all individuals entering the protected area except bona fide Federal, State and local law enforcement personnel on official duty, through the use of equipment designed for the detection of firearms, explosives, and incendiary devices. In addition, the licensee has provided commitments to conduct a physical pat-down search of an individual whenever the licensee has cause to suspect that the individual is attempting to introduce firearms, explosives, or incendiary devices into the protected areas; or whenever firearms or explosives detection equipment is out of service or not operating satisfactorily.

3.0 VITAL AREA ACCESS

CECO has modified their Quad-Cities Nuclear Power Station, Units 1 and 2 Physical Security Plan to limit unescorted access to vital areas during non-emergency conditions to individuals who require access in order to perform their duties. They have established current authorization access lists for each vital area which are updated and approved by the cognizant manager or supervisor at least once every 31 days. CECO has assured that only individuals whose specific duties require access to vital areas during nonemergency conditions are included on their site access list. CECO has provided further assurance by revoking access and retrieving badges and other entry devices prior, to or simultaneously with notification of termination of an individual's unescorted facility access.

8806230320 880609  
PDR ADDCK 05000254  
F PDR

Based upon commitments made by the licensee in revisions to their Physical Security Plan, the staff has concluded that CECO meets the vital area access requirements of 10 CFR 73.55(d)(7)(i)(A),(B), and (C).

#### 4.0 LOCKS AND KEYS

The licensee has committed to providing methods to reduce the probability of compromise of keys, locks, combinations, and related access control devices used to control access to their protected areas and vital areas. These methods include the rotation of keys, locks, combinations, and related access control devices every 12 months or the changing of these devices whenever there is evidence or suspicion that any key, lock, combination or related access control device may have been compromised or when an individual who has had access to any of these devices has had their access terminated due to a lack of trustworthiness, reliability or inadequate work performance. Only persons granted unescorted facility access are issued such entry devices.

Based upon commitments made by the licensee in revisions to their Physical Security Plan, the staff has concluded that CECO meets the requirements of 10 CFR 73.55 (d)(9) to reduce the probability of compromise of keys, locks, combinations, and related access control devices.

#### 5.0 EMERGENCY ACCESS

The licensee has provided commitments to provide for the rapid ingress and egress of individuals during emergency conditions or situations that could lead to emergency conditions by assuring prompt access to vital equipment. An annual review of their physical security plans and contingency plans and procedures will be conducted to evaluate their potential impact on plant and personnel safety. Emergency access is granted by a licensed senior operator.

Based upon commitments made by the licensee in revisions to their Physical Security Plan, the staff has concluded that CECO meets the requirements of 10 CFR 73.55 (d)(7)(ii) to assure access to vital equipment during emergencies or to situations that may lead to an emergency.

#### 6.0 PROTECTION OF SECONDARY POWER SUPPLIES

The licensee has provided commitments to protect the on-site secondary power supply system for alarm annunciator equipment and non-portable communications equipment by including such equipment within a vital area boundary.

Based upon commitments made by the licensee in revisions to their Physical Security Plan, the staff has concluded that CECO meets the requirements of 10 CFR 73.55(e) in protecting the secondary power supplies of alarm annunciator equipment and non-portable communications equipment.

## 7.0 VITAL AREA ENTRY/EXIT LOGGING

The licensee has committed to maintaining a log indicating name, badge number, time of entry, and time of exit of all individuals granted access to a vital area except those individuals entering or exiting the reactor control room.

Based upon commitments made by the licensee in revisions to their Physical Security Plan, the staff has concluded that CECO meets the requirements of 10 CFR 73.70(d) by maintaining entry/exit log of individuals accessing vital areas (except the reactor control room).

## 8.0 CONCLUSION

Based upon the above evaluation, we find that the licensee has met the requirements of the Miscellaneous Amendments and Search Requirements revisions to 10 CFR Part 73.55 and the record reporting requirements of 10 CFR Part 73.70.
