Ms. Orysia Masnyk Bailey
Division of Nuclear Materials Safety
Sam Nunn Atlanta Federal Building
61 Forsyth Street SW Suite 23T85
Atlanta, GA 30303-8931

Dear Ms Bailey:

Request that NRC Materials License number 01-02861-05, docket number 030-17584, be amended. Request that the area adjacent to building 3202 on Pelham range be approved as a storage area for shipping containers awaiting transport. The area is the Security Operational Test Site, located on Gate 5 road and is no longer in use. The area encompasses the parking lot of building 3202 and is located at approximately 33° 44.770' North by 85° 56.176' West. The exterior of the containers will be checked for contamination prior to being placed at this new site. After all containers have been removed from this new site a walking survey using a scintillation detector will be conducted.

If you have any questions or require clarification on any of the information above, contact Mr. John May at (573) 596-0131 extension 3-6224.

Sincerely,

A handwritten signature in black ink that reads "John W. May".

John W. May
Health Physics Manager
