Docket No. 50-461

Mr. Dale L. Holtzscher
Acting Manager - Licensing and Safety
Clinton Power Station
P. O. Box 678
Mail Code V920
Clinton, Illinois 61727

Dear Mr. Holtzscher:

SUBJECT: TECHNICAL SPECIFICATION CHANGE REQUEST TO REVISE THE UNIT
ONSITE ORGANIZATION CHART AND RELATED SPECIFICATIONS
(TAC NO. 68637) - Clinton Power Station, Unit No. 1

The Commission has issued the enclosed Amendment No. 27 to Facility Operating License No. NPF-62 for the Clinton Power Station, Unit No. 1. This amendment consists of changes to the Technical Specifications (TSs) in response to your application dated February 23, 1988, as supplemented March 30, 1988.

This amendment revises Figure 6.2.2-1, "Unit Onsite Organization," Specification 6.3.1, "Unit Staff Qualifications," and Specification 6.5.1.2, "Facility Review Group (FRG) Composition."

A copy of our Safety Evaluation is also enclosed. Notice of Issuance will be included in the Commission's biweekly Federal Register notice.

Sincerely,

A handwritten signature in cursive script, reading "John B. Hickman".

John B. Hickman, Project Manager
Project Directorate III-2
Division of Reactor Projects - III,

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

ILLINOIS POWER COMPANY, ET AL.

DOCKET NO. 50-461

CLINTON POWER STATION, UNIT NO. 1

AMENDMENT TO FACILITY OPERATING LICENSE

Amendment No. 27
License No. NPF-62

1. The Nuclear Regulatory Commission (the Commission) has found that:
 - A. The application for amendment by Illinois Power Company* (IP), and Soyland Power Cooperative, Inc., (the licensees) dated February 23, 1988, as supplemented March 30, 1988, complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations set forth in 10 CFR Chapter I;
 - B. The facility will operate in conformity with the application, the provisions of the Act, and the rules and regulations of the Commission;
 - C. There is reasonable assurance (i) that the activities authorized by this amendment can be conducted without endangering the health and safety of the public, and (ii) that such activities will be conducted in compliance with the Commission's regulations;
 - D. The issuance of this amendment will not be inimical to the common defense and security or to the health and safety of the public; and
 - E. The issuance of this amendment is in accordance with 10 CFR Part 51 of the Commission's regulations and all applicable requirements have been satisfied.
2. Accordingly, the license is amended by changes to the Technical Specifications as indicated in the attachment to this license amendment, and paragraph 2.C.(2) of Facility Operating License No. NPF-62 is hereby amended to read as follows:

*Illinois Power Company is authorized to act as agent for Soyland Power Cooperative, Inc. and has exclusive responsibility and control over the physical construction, operation and maintenance of the facility.

Technical Specifications

The Technical Specifications contained in Appendix A and the Environmental Protection Plan contained in Appendix B, as revised through Amendment No. 27, are hereby incorporated into this license. Illinois Power Company shall operate the facility in accordance with the Technical Specifications and the Environmental Protection Plan.

3. This license amendment is effective as of its date of issuance.

NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

SAFETY EVALUATION BY THE OFFICE OF NUCLEAR REACTOR REGULATION
SUPPORTING AMENDMENT NO. 27 TO FACILITY OPERATING LICENSE NO. NPF-62
CLINTON POWER STATION, UNIT NO. 1
ILLINOIS POWER COMPANY
DOCKET NO. 50-461

1.0 INTRODUCTION

By letter dated February 23, 1988, as supplemented March 30, 1988, the Illinois Power Company, et al., the licensees, submitted a Proposed Amendment to Facility Operating License No. NPF-62 for the Clinton Power Station. The proposed amendment would revise Figure 6.2.2-1, "Unit Onsite Organization," Specification 6.3.1, "Unit Staff Qualifications," and Specification 6.5.1.2, "Facility Review Group (FRG) Composition" in support of a proposed organizational restructuring.

2.0 DISCUSSION AND EVALUATION

The following changes are proposed to the onsite organizational structure shown in Figure 6.2.2-1, "Unit Onsite Organization,":

- The position of Technical Advisor to the Plant Manager is no longer justified and should be deleted.
- The position of Director-Plant Radiation Protection will be retitled Assistant Manager-Plant Radiation Protection.
- The position of Director-Plant Technical will be retitled Assistant Manager-Plant Technical.
- The positions of Supervisor-Chemistry and Supervisor-Radwaste will report to the Assistant Manager-Plant Technical.
- The positions of Supervisor-Computer and Supervisor-Systems will be transferred to Nuclear Station Engineering department and are no longer a part of the Unit Onsite Organization.
- The position of Assistant Supervisor-Plant Support Services will be established and the position of Administrative Supervisor will be deleted.
- The position of Supervisor-Industrial Safety will report to the Supervisor-Plant Support Services.

The position of Director-Plant Radiation Protection is proposed to be changed to Assistant Manager-Plant Radiation Protection in Specification 6.3.1, "Unit Staff Qualifications."

8909200071 890913
PDR ADOCK 05000461
P FDC

The positions of Director-Plant Technical and Director-Plant Radiation Protection are proposed to be changed to Assistant Manager-Plant Technical and Assistant Manager-Plant Radiation Protection in Specification 6.5.1.2, "Facility Review Group (FRG) Composition."

These proposed changes are in support of a reorganizational restructuring of Illinois Power Company. These proposed changes are administrative in nature and do not impact the accident analysis, create the possibility of a new or different kind of accident, or involve a significant reduction in the margin of safety. Therefore, the staff has determined that the proposed changes are acceptable.

3.0 ENVIRONMENTAL CONSIDERATION

The amendment relates to changes in recordkeeping, reporting, or administrative procedures or requirements. Accordingly, the amendment meets the eligibility criteria for categorical exclusion set forth in 10 CFR Section 51.22(c)(10). Pursuant to 10 CFR 51.22(b), no environmental impact statement or environmental assessment need be prepared in connection with the issuance of the amendment.

4.0 CONCLUSION

The proposed changes to Figure 6.2.2-1, "Unit Onsite Organization," Specification 6.3.1, "Unit Staff Qualifications," and Specification 6.5.1.2, "Facility Review Group (FRG) Composition" are administrative in nature and do not affect plant operations. Therefore, the changes are acceptable.

We have concluded, based on the considerations discussed above, that: (1) there is reasonable assurance that the health and safety of the public will not be endangered by operation in the proposed manner, (2) such activities will be conducted in compliance with the Commission's regulations, and (3) the issuance of this amendment will not be inimical to the common defense and security or to the health and safety of the public.
