Dear Mr. Ratliff:

In response to your letter of February 21, 2002, requesting our assistance in obtaining distribution reports of generally licensed gauges by Molins Richmond, Inc. (license number 45-02429-02G formerly Molins Machine Co., Inc.), we have reviewed the status of the general license. According to our records, the license for Molins Richmond, Inc., was terminated on September 26, 2000. In addition, we contacted a representative of Molins Richmond Inc., to determine if gauges had been shipped to your jurisdiction during the period of interest prior to license termination. This individual reported that Molins Richmond, Inc., has no record of distributing nuclear gauges to the State of Texas.

We hope that this adequately addresses your concerns. If you have any further questions on this matter, please contact Jeff Griffis at 404-562-4737.

Sincerely,

/RA/

Luis A. Reyes
Regional Administrator
