UNITED STATES
ATOMIC ENERGY COMMISSION
WASHINGTON, D.C. 20545
INDIANA & MICHIGAN ELECTRIC COMPANY AND

INDIANA & MICHIGAN POWER COMPANY
(DONALD C. COOK NUCLEAR PLANT, UNIT 1)

DOCKET NO. 50-315

Construction Permit No. CPPR-60
Amendment No. 1

1. The Atomic Energy Commission (the Commission) has found that:
 - A. The application for amendment of Construction Permit No. CPPR-60 dated June 21, 1971, complies with the requirements of the Atomic Energy Act of 1954, as amended, and the Commission's regulations, 10 CFR, Chapter 1.
 - B. Prior public notice of the proposed issuance of this amendment is unnecessary because this amendment does not involve significant hazard considerations different from those previously evaluated.
 - C. Issuance of this amendment will not be inimical to the common defense and security or to the health and safety of the public.
2. Construction Permit No. CPPR-60 is hereby amended as follows:

The names "Indiana & Michigan Electric Company and Indiana & Michigan Power Company" are substituted for the name "Indiana & Michigan Electric Company," and the word "applicants" is substituted for "applicant."
3. This amendment shall become effective five (5) days after receipt by the Commission of executed copies of capital fund and power agreements between the Electric Company and the Power Company, a bank loan agreement between Power Company and certain banks, and upon a

determination within that period that the executed agreements are in the same form and contain essentially the same terms as those submitted for the Commission's review as attachments to a letter from the Indiana & Michigan Electric Company, dated July 30, 1971, to the Director, Division of Reactor Licensing.

UNITED STATES ATOMIC ENERGY COMMISSION

DOCKET NOS. 50-315 AND 50-316

INDIANA & MICHIGAN ELECTRIC COMPANY

NOTICE OF ISSUANCE OF AMENDMENT TO
CONSTRUCTION PERMITS

The Atomic Energy Commission has issued Amendment No. 1 to Construction Permit Nos. CPPR-60 and CPPR-61 which were issued to the Indiana & Michigan Electric Company (Electric Company). The construction permits authorize the construction of Units 1 and 2 of the Donald C. Cook Nuclear Plant (facilities) near Bridgman, Michigan. The amendments to the construction permits are for the sole purpose of including the Indiana & Michigan Power Company (Power Company), which will be a wholly owned subsidiary of the Electric Company, as a co-permittee with the Electric Company to acquire, construct, and own the facilities. The amendments will become effective five (5) days after the receipt by the Commission of executed copies of capital fund and power agreements between the Electric Company and the Power Company, a bank loan agreement between Power Company and certain banks, and upon a determination by the Commission within that period that the executed agreements are in the same form and contain essentially the same terms as those submitted for the Commission's review as attachments to letter from the Electric Company, dated July 30, 1971.

In an application for amendments of construction permits and Amendment No. 15 to the application for operating licenses dated June 21, 1971, the Electric Company requested that the Power Company be made a co-permittee with the Electric Company. Supplemental information relative to the application for amendments of construction permits was submitted to the Commission in letters from the American Electric Power Company, Inc. dated July 30, 1971, and from the Electric Company dated July 30 and August 10, 1971.

The Commission has made the findings required by the Atomic Energy Act of 1954, as amended and the Commission's regulations, which are set forth in the amendments to the construction permits, and has concluded that the issuance of the amendments to the construction permits will not be inimical to the common defense and security or to the health and safety of the public. The Commission has also found that prior public notice of the proposed issuance of the amendments to the construction permits is not required since there are no significant hazard considerations involved in the amendments.

Within fifteen (15) days from the date of publication of this Notice in the FEDERAL REGISTER the applicants may file a request for a hearing in connection with issuance of these amendments, and any person whose interest may be affected by the issuance of these amendments may file a petition for leave to intervene. Requests for a hearing and

petitions for leave to intervene shall be filed in accordance with the Commission's "Rules of Practice", 10 CFR Part 2. If a request for a hearing or a petition for leave to intervene is filed within the time specified in this Notice, the Commission will issue a notice of hearing or appropriate order.

For further details with respect to this action, see (1) the application for amendments dated June 21, 1971, (2) letters from the Electric Company, dated July 30 and August 10, 1971, to the Director, Division of Reactor Licensing, (3) letter from American Electric Power Service Corporation dated July 6, 1971 and letter from American Electric Power Company, Inc., dated July 30, 1971, to the Director, Division of Reactor Licensing, and (4) the amendments to the construction permits, all of which are available for public inspection in the Commission's Public Document Room, 1717 H Street, N. W., Washington, D. C. Copies of item (4) above may be obtained upon request sent to the U. S. Atomic Energy Commission, Washington, D. C., Attention: Director, Division of Reactor Licensing.
