Mr. John Dolan, Vice President
Indiana Michigan Power Company
c/o American Electric Power Service Corporation
1 Riverside Plaza
Columbus, Ohio 43216

Dear Mr. Dolan:

The Commission has issued the enclosed Amendment No. 114 to Facility Operating License No. DPR-58 and Amendment No. 98 to Facility Operating License No. DPR-74 for the Donald C. Cook Nuclear Plant, Unit Nos. 1 and 2. The amendments consist of changes to License Conditions 2.G for Unit 1 and 2.F for Unit 2 in response to your application dated October 5, 1987.

These amendments revise in all places in the licenses the name of the utility. The Indiana and Michigan Electric Company is now changed to the Indiana Michigan Power Company. We have considered your application and, on the basis that the changes do not in any way affect or alter the company's assets, financial condition, corporate structure or corporate organization, we find the changes acceptable.

Pursuant to 10 CFR Section 51.32, the Commission has determined that the issuance of these amendments will have no significant impact on the environment (52 FR 48169).

The staff has concluded, based on the considerations discussed above, that there is reasonable assurance that the health and safety of the public will not be endangered by operation in the proposed manner and such activities will be conducted in compliance with the Commission's regulations, and the issuance of the amendments will not be inimical to the common defense and security or to the health and safety of the public.

The notice of issuance will be included in the Commission's next biweekly Federal Register notice.

Sincerely,

Original Signed By:

David L. Wigginton, Project Manager
