NRC TO MEET WITH SCE&G OFFICIALS TO DISCUSS SAFETY PERFORMANCE AT SUMMER NUCLEAR POWER PLANT

The U.S. Nuclear Regulatory Commission staff will meet with South Carolina Electric & Gas officials on Tuesday, April 9, to discuss the results of NRC's annual assessment of safety performance at the Summer nuclear power plant, located near Jenkinsville, South Carolina.

The meeting will be held at 1:00 p.m. at the Summer plant Training Center. The public is invited to observe the meeting, and NRC officials will be available before the meeting is adjourned to answer any questions.

A letter sent from the NRC's Regional Administrator to SCE&G, which addresses plant safety performance during the previous year and forms the basis of the meeting discussion, is available from Region II Public Affairs or on the NRC web site at
