Subject: APPLICATION FOR LICENSE TO RECEIVE AND TRANSFER  
NORMAL URANIUM

Dear Mr. Price:

We desire a license to enable us to purchase 2-1/2 pounds of normal uranium metal. This material is needed to fill an order which we have received from Philip Bros., Inc., 70 Pine Street, New York City, N. Y. for 1 Kg of metal powder. It is our understanding that their intention is to export this material and that they have Export License No. 2505 from the Commission authorizing such export.

We would like to purchase this material from AEC for delivery within a few weeks and would appreciate your early action. In view of the small quantity involved, it seems practical to purchase the 2-1/2 pounds from the stock of AEC normal uranium on hand at our laboratory. Can we arrange to have the transaction handled in this manner?

Very truly yours,
